INSTRUCTION BOOK FOR  
Deluxe Insta-Theater

---

## Introduction

---

Thank you for purchasing this Da-Lite product. Before attempting to use it, make sure to carefully read the contents of these instructions.

## Caution

---

1. Avoid touching the films during raising or lowering of unit.
2. Do not set up the screen on an unstable or uneven surface. This may cause the screen to fall or tip over, resulting in damage to the screen or personal injury. Be especially careful when setting up at home where small children may be present.
3. When screen is not in use and retracted, use the built-in feet to stabilize it on a flat surface. Standing the screen on one of its ends creates the risk of falling over, and should be avoided.
4. Do not hang or attach items to the screen.

## Screen Care

---

1. Do not leave the screen in areas subject to direct sunlight.
2. Keep the projection surface of the screen free from dirt and dust, which can interfere with the quality of the projected image. If the screen becomes dirty, lightly wipe it off with soft cloth moistened in a weak, 20 to 1 solution of a mild neutral detergent and water. Benzine, thinner, and other volatile agents can cause permanent damage to the screen and should never be used for cleaning.
3. Do not set up the screen in areas subjected to strong breeze. This may cause the screen to move and interfere with the quality of the projected image.
