Blackmagic Quick Snap Power Solution QUICKSTART GUIDE

ikan's Quick Snap Pro Battery Rail Kit, designed for BlackMagic Cinema Camera, is fast, easy and simply to use. Attach your Pro battery (Anton Bauer or V-Mount) to the battery plate and make sure it is secure.

Loosen the thumbscrew to the Quick Rod Release Clamp and attach it on to your 15mm rail system for your BlackMagic Cinema Camera and then tighten the thumbscrew. You can either mount that battery kit facing over or under the 15mm rails. To detach the quick snap battery kit, loosen the thumbscrews enough for the grips to clear the 15mm rails and gently pull up.

Blackmagic Quick Snap Power Solution QUICKSTART GUIDE

After you have mounted the battery kit to your discretion, take P-tap cable with the adapter and plug the two prong end to the battery plate and the other end to the BlackMagic Cinema Camera. Now you are running off Pro Battery power and not the internal battery of the BlackMagic Cinema Camera.
