

RS-22

DIMENSIONS

Weight: 1.5 lb / 0.68 kg

DESCRIPTION

The RAIN SLICKER Camera Case has improved steadily over the past 20 years. When squared lens shades became the standard, it allowed us to put a neoprene gasket around the shade to hold firmly and keep water out. The removable Porta-Brace shade has a form fitting plastic material, which you can bend and shape to fit, making it more difficult for rain to reach the lens. The series of zipper slides at the base allows you to quickly and easily cover the camera even with large batteries and wireless microphones. It works on the tripod or on your shoulder and access is made easy with clear vinyl windows, flaps and zippered openings. The material is a special combination of two fabrics and two types of waterproofing. (Many Custom Patterns have been developed for "Box style" sports lenses. 45X, 55X, 70X, etc. CONTACT ken@portabrace.com)

EQUIPMENT COVERED

Sony DSR-590
 Sony DSR-570
 Sony DSR-370
 Sony DSR-500
 Sony DSR-300
 Sony DSR-250
