

Mity Lite Portable PA System

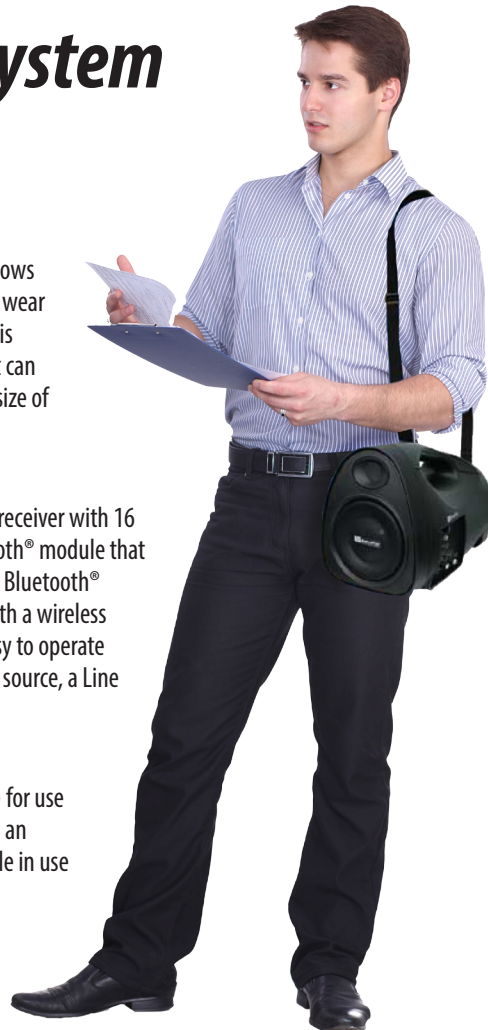

Maximum Portability in a Compact Design

The SW300 Mity-Lite compact portable PA system weighs only 6.5 lbs and allows maximum portability with its small pa system design. You can carry it, wear it, or set it on a tripod to use for powerful and clear sound that this plug and speak system offers. It is a 35 Watt system that can reach an audience size of 350 people in a room of size of up 1500 square feet.

Features include a built-in 16 channel wireless receiver with 16 user selectable channels, and a built-in Bluetooth[®] module that allows a user to stream music wirelessly with a Bluetooth[®] enabled device. The SW300 Mity-Lite comes with a wireless handheld mic, durable plastic enclosure and easy to operate controls. A Line-in for CD or mp3 players and other audio source, a Line out for mic inputs, tone controls, and carrying case.

The built-in rechargeable battery lasts between 5-8 hours (depends on volume) for use away from power outlets. Recharges in about 4.5 hours. It is also equipped with an intelligent charging system with built-in rechargeable battery that charges while in use with the AC power source.
