

ICICLE

The Icicle is Blue's new stylish USB converter and mic preamp combo that allows you to connect any XLR microphone directly into your computer via USB! The Icicle features a studio quality microphone preamp, 48V phantom power, fully balanced low noise front end, analog gain control, and driverless operation. Setup is a snap! The Icicle works with both dynamic and condenser microphones, providing high quality and hassle-free connectivity with Mac or PC. Whether you're using a microphone for digital recording, podcasting, voice messaging, or voice recognition applications, the Icicle is the quick and easy way to get connected.

Computer, XLR cable & microphone are not included with the Icicle
