## **TDS # 1020**

# **CHEMTRONICS<sup>®</sup> Technical Data Sheet**

# **Ultrajet**<sup>®</sup>

## **PRODUCT DESCRIPTION**

Ultrajet<sup>®</sup> compressed gas duster is a high pressure duster that cleans electronics without scratching delicate surfaces. This duster/ cleaner is nonflammable, residue-free and won't scratch delicate surfaces.

- Filtered to 0.2 microns
- Nonflammable
- Leaves no residue
- High pressure for contamination control
- Nonabrasive
- Excellent material compatibility
- Penetrates hard to reach areas
- Contains no ozone depleting compounds

## **TYPICAL APPLICATIONS**

Ultrajet<sup>®</sup> duster is engineered for all aspects of electronic equipment maintenance and is particularly suited for applications involving:

- Audio/Video Equipment
- Computers and Other Electronic Equipment
- Fax Machines
- Laboratory Instruments
- Photo Equipment
- Printed Circuit Boards
- Printers
- Surface Mount Devices

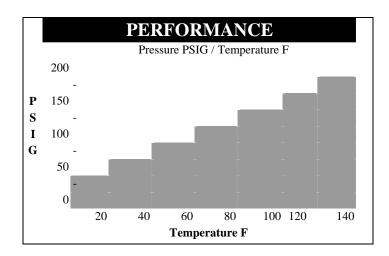

## TYPICAL PRODUCT DATA AND PHYSICAL PROPERTIES

| Boiling Point                | -15.7°F          |  |  |  |
|------------------------------|------------------|--|--|--|
| Vapor Density (air=1)        | 3.18             |  |  |  |
| @ 77°F                       |                  |  |  |  |
| Solubility in Water          | 0.10% by weight  |  |  |  |
| @ 77°F F/1 atm               |                  |  |  |  |
| Specific Gravity             | 1.21             |  |  |  |
| (water = $1 @ 77^{\circ}F$ ) |                  |  |  |  |
| <b>Evaporation Rate</b>      | >1               |  |  |  |
| (butyl acetate=1)            |                  |  |  |  |
| Appearance                   | Clear, Colorless |  |  |  |
|                              | Liquified Gas    |  |  |  |
| Odor                         | Slight Ethereal  |  |  |  |
| Surface Tension              | 7.8              |  |  |  |
| (dynes/cm @77°F)             |                  |  |  |  |
| Flash Point (TCC)            | None             |  |  |  |
| Shelflife                    | 5 years          |  |  |  |
| RoHS/WEEE                    | RoHS             |  |  |  |
| Status                       | Compliant        |  |  |  |

## COMPATIBILITY

Ultrajet<sup>®</sup> is generally compatible with most materials used in printed circuit board fabrication, including sensitive plastics and compounds. As with any duster/cleaner, compatibility must be determined on a non-critical area prior to use.

| <u>Material</u>      | <u>Compatibility</u> |
|----------------------|----------------------|
| Buna-N               | Excellent            |
| Graphite             | Excellent            |
| HDPE                 | Excellent            |
| LDPE                 | Excellent            |
| Lexan <sup>TM</sup>  | Excellent            |
| Neoprene             | Excellent            |
| Cross-Linked PE      | Excellent            |
| Polyacrylate         | Excellent            |
| Polystyrene          | Excellent            |
| PVC                  | Excellent            |
| Silicone Rubber      | Excellent            |
| Teflon <sup>TM</sup> | Excellent            |
| Viton <sup>TM</sup>  | Excellent            |
|                      |                      |

### **USAGE INSTRUCTIONS**

For industrial use only.

Read MSDS carefully prior to use. No special surface preparation is required prior to using Ultrajet<sup>®</sup>. Direct high pressure spray onto the area to be cleaned to remove dust, dirt and other contaminant. For optimum performance and pin point control, use with the attached extension tube.

## AVAILABILITY

ES1020 10 oz. Aerosol

### ENVIRONMENTAL IMPACT DATA

| ENVIRONMENTAL IMPACT DATA |                           |     |        |  |  |  |
|---------------------------|---------------------------|-----|--------|--|--|--|
| CFC                       | $0.0\% \\ 0.0\% \\ 0.0\%$ | VOC | 0.0%   |  |  |  |
| HCFC                      |                           | HFC | 100.0% |  |  |  |
| CL Solv.                  |                           | ODP | 0.00   |  |  |  |

CFC, HCFC, CL. SOLV., VOC, and HFC numbers shown are the content by weight. Ozone depletion potential (ODP) is determined in accordance with the Montreal Protocol and U.S. Clean Air Act of 1990. The ODP of this product is 0.0. It is the sum of the ODP of the substances that may contribute to the depletion of stratospheric ozone, based upon the weight of each substance in the product's formulation.

#### NOTE:

This information is believed to be accurate. It is intended for professional end users having the skills to evaluate and use the data properly. CHEMTRONICS<sup>®</sup> does not guarantee the accuracy of the data and assumes no liability in connection with damages incurred while using it.

| SECTION 3: HAZARDS IDENTIFICATION<br>Emergency Overview: Clear, colorless liquefied gas. This product is | nonflammable. Exposure to       | liquid may cause frosthite             |  |  |  |
| <u>Eves:</u> Contact with liquid is irritating and may cause frostbite.                                  | nonnannnaoie. Exposure to       | inquid may cause mostone.              |  |  |  |
| <u>Skin:</u> Contact causes frostbite; prolonged contact cause skin                                      | n irritation                    |  |  |  |  |
| Ingestion: Unlikely due to volatile nature of product. Contact with lice                                 |                                 | nouth and throat tissues.              |  |  |  |
| Inhalation: Harmful if inhaled. High concentrations of vapors in in                                      |                                 |  | s, unconsciousness, and even death with      |  |  |
| longer exposure. Keep people away from such vapors without self-co                                       |                                 |  |  |  |  |
| Pre-Existing Medical Conditions Aggravated by Exposure: Heart, lun                                       | ng, skin, eye.                  |  |  |  |  |
| SECTION 4: FIRST AID MEASURES  |                                 |  |  |  |  |
| Eyes: Treat for possible frostbite, then flush with plenty of wat  | ter. After initial flushing, re | emove any contact lenses and           | continue flushing for at least 15 minutes.   |  |  |
| Have eyes examined and tested by medical personnel if irritation dev                                     |                                 |  |  |  |  |
| Skin: Treat for possible frostbite, then wash skin with soap at  | nd water. Remove contam         | inated clothing. Get medical           | attention if irritation develops or persist. |  |  |
| Wash clothing separately before reuse.   | ·····                           |  | de net induce mentione. Out immediate        |  |  |
| <u>Ingestion:</u> Treat for possible frostbite. Swallowing less than an ou medical attention.            | lince will not cause signific   | and narm. For larger amounts,          | do not induce vomiting. Get immediate        |  |  |
| <u>Inhalation:</u> Remove to fresh air. If not breathing, give artificial resp.                          | iration If breathing is diffic  | cult. give oxygen. Get medical         | attention                                    |  |  |
| SECTION 5: FIRE FIGHTING MEASURES  | indiana in orbaning io diffe    | and, give on ygeni oet mearear         |  |  |  |
|  | EL/UEL: Nonflammable            |  |  |  |  |
| Extinguishing Media: Use alcohol foam, carbon dioxide, or water sp                                       |                                 | lving this material.                   |  |  |  |
| Fire Fighting Instructions: As in any fire, wear self-contained breath                                   |                                 |  | l or equivalent) and full protective gear.   |  |  |
| SECTION 6: ACCIDENTAL RELEASE MEASURES   |                                 |  |  |  |  |
| Large Spills: Shut off leak if possible and safe to do so. Wear sel                                      | f-contained breathing appar     | atus and appropriate personal          | protective equipment. Absorb spill with      |  |  |
| inert material (e.g. dry sand or earth), then place in a chemical waste                                  | e container for proper dispos   | al. Do not flush to sewer. A           | void runoff into storm sewers and ditches    |  |  |
| which lead to waterways.   |                                 |  |  |  |  |
| Small Spills: Absorb spill with inert material (e.g. dry sand or earth)                                  | , then place in a chemical w    | aste container for proper dispos       | sal.   |  |  |
| SECTION 7: HANDLING AND STORAGE  |                                 |  |  |  |  |
| Avoid prolonged or repeated contact with eyes, skin, and clothing.                                       |                                 |  |  |  |  |
| Do not reuse this container. Store in a cool dry place away from heat                                    | t, sparks and flame. Keep co    | ontainer closed when not in use        | e. Do not store in direct sunlight.          |  |  |
| KEEP OUT OF REACH OF CHILDREN.   |                                 |  |  |  |  |
| SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTEC  | TION                            |  | OTHER  |  |  |
| Exposure Guidelines:<br>CHEMICAL NAME  | ACGIH TLV                       | OSHA PEL                               | OTHER<br>(DUPONT) AEL                        |  |  |

#### SECTION 15: REGULATORY INFORMATION

SECTION 313 SUPPLIER NOTIFICATION

This product contains no toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40 CFR 372).

This information should be included on all MSDSs copied and distributed for this material.

TOXIC SUBSTANCES CONTROL ACT (TSCA).

All ingredients of this product are listed on the TSCA Inventory.

WHMIS: Class A; Class D2B

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

#### SECTION 16: OTHER INFORMATION

Product is a Level 1 aerosol. Do not puncture or incinerate containers. Normal ventilation for standard manufacturing practices is usually adequate. Local exhaust should be used when large amounts are released.

To the best of our knowledge, the information contained herein is accurate. However, all materials may present unknown hazards and should be used with caution. In particular, improper use of our products and their inappropriate combination with other products and substances may produce harmful results which cannot be anticipated. Final determination of the suitability of any material is the sole responsibility of the user. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that may exist.
