GO Guitar Cords

These high quality 1/4" guitar/patch cords come in a variety of convenient lengths and colors. All models are meticulously hand soldered using our very flexible, low noise GS-6 instrument cable mated with two premium Canare F-15 1/4" mono phone plugs. Also highly recommended as an Amplifier to Speaker Cabinet lead.

AV Combo Snakes

For ENG/EFP/OB operations. Broadcast quality made-to-order A/V combo snakes using flexible Canare A2V1 (pictured), A3V1-FB, A2V2-L, A3V2-FB Audio+Video composite cable.

Each end precisely terminated to your choice of impedance matched 75Ω BNC, F or RCA crimp plugs with Male &/or Female XLR3 Connectors. Contact Canare for all custom snake requirements.

Star Quad Microphone and Balanced Audio Line Cords

EC Microphone Cords

Star Quad

Canare Star Quad is designed for use with microphones but is also excellent for all line-level signals (e.g. mixer to power amps). The 4-conductor Star Quad arrangement cancels electromagnetically induced noise from SCR dimmer packs, fluorescent lighting ballasts and AC power transformers. Handling noise is prevented by use of cotton filler material. Excellent frequency response is maintained due to special irradiated polyethylene insulation which provides a low capacitance dielectric.

Canare Star Quad cable is super flexible. We use large numbers of thin wire strands in both the conductors and overall shield. We extrude a special compound PVC outer jacket that remains pliant at extremely low temperatures with no wait between cold shipping and installation.

Applications

- Microphones
- Studio audio tie lines
- patch cords
- rack wiring
- snake systems
- PA Mixers

Features

- Super Flexible even in sub-zero weather
- Rejects EMI, RFI and Handling Noise
- High Density Copper Braid Shield
- Variety of Matte Finish Jacket Colors
- 100% Test and Quality Controlled
- Excellent Connector Pull Strength
