

LABELS THAT STICK & STAY STUCK

RHINO labels are as dependable as the RHINO 5000. Easy to use and super-strong, they're designed for the long haul. Thanks to industrial-strength adhesives, they deliver the lasting durability and legibility you demand – in five materials, for a multitude of applications. To meet your high standards, RHINO labels are designed to work exclusively with our printers and perform on any surface you encounter.

- Easy-to-peel, split-back styles will speed you along.
- Industrial-strength adhesives help these labels stick and stay stuck – even in harsh environments.
- Thermal transfer print technology produces labels that are durable, smear-proof and resistant to chemicals, solvents, heat, UV and more.

RHINO 5000 is the tough, affordable labeling tool that outperforms even higher priced labeling solutions in real-world, jobsite conditions. Built for speed and durability, its exclusive one-touch hot keys give you commonly used label formats – like wire wraps and patch panels – at your fingertips.

Want to build your professional reputation? Labeling with the RHINO 5000 gives your installations a neat, finished look. Plus, easy-to-load, easy-to-peel RHINO label cartridges feature industrial-strength adhesives so your labels will stick and stay stuck.

5000 Features:

- The Wrap "Hot Key" enables you to select the wire/cable size so RHINO 5000 can auto-size the text and label length to fit that wire.
- The Patch Panel "Hot Key" creates one label with serialized port numbers and proper distance between ports.
- The Fixed "Hot Key" creates perfectly-sized labels for racks, faceplates, storage bins and more – saving you valuable time.

RHINO™ 5000

PROFESSIONAL LABELING TOOL

Put the power of RHINO 5000 in your hands. In just seconds, create long-lasting labels for wire wrapping, patch panels, terminal blocks and more. Crisp, clear thermal-transfer printing resists smears, chemicals, solvents, UV, heat – whatever your worksite can hand out. And, you'll have an easy handle on things with the RHINO 5000's lightweight portability, bright backlit display and impact-resistant protective rubber bumper. Tired of fumbling with difficult-to-remove label backing?

Our easy-to-peel labels feature a split-back design for "get-it-done-now" efficiency.

Battery Life Indicator
Combined with "automatic shutoff" technology, you won't run short of power on the job.

Backlit Display
Essential for labeling in low-light environments.

Wrap
Automatically selects the right label size – and the largest text size – for maximum legibility on any cable or wire. Differentiates between 6 and 9, 1 and 1, 0 and O. Repeats text for 360° identification.

Fixed
Automatically centers and prints a specified label length – ideal for racks, outlets, bins, warehouse applications and more.

Patch Panel
Saves keystrokes while automatically centering and spacing text to fit each port. Serializes text to eliminate repetitive typing: great for datacom, RF, even fiber patch panels.

Impact-Resistant Rubber Bumper
Protects your RHINO 5000 from accidental falls or harsh jobsite conditions.

Bar Code
Prints Bar Code 39 and Code 128 on 3/4" (19mm) labels.

Terminal Block
The Terminal Block Key lets users create perfectly spaced, auto-serialized labels for vertically aligned Terminal Blocks – ideal for all electrical jobs.

"Symbols" Library
When words won't do, we've provided a wide range of the symbols for graphic, professional labeling in all types of applications: ⚠ ⚡ Ω ↩
