

SMARTPHONE & TABLET TELEPROMPTERS

iPhone® & Android® Teleprompters

Use your iPhone® or Android® Smartphone as a teleprompter with **Datavideo's TP-100** system. Simply attach a video camera and smartphone to the TP-100's frame, and the setup is complete. Our special beamsplitter glass will allow your news anchor, talkshow host, or presenter to read the text on the glass screen while being recorded.

iPad® & Android® Tablet Teleprompters

Datavideo also makes a teleprompter system for iPad® and Android® Tablet owners. This system utilizes a larger glass screen, perfect for reading text at a distance.

TP-300 is for use with handheld camcorders.

TP-500 is meant for use with DSLR cameras.

TP-600 is for use with ENG video cameras.

All three models come with a wireless (for Android® Tablet users) or wired (for iPad® owners) remote for controlling the speed and the direction of text.

In addition, all three models come with a light-absorbing sock cloth to shield the front of the camera and the back of the teleprompter from light for easier reading of the text.

Lastly, the models come with a simple-to-use bracket system and rubber sleeve which keeps your valuable iPad® or Android® Tablet snugly in place and safe from scratches.

TP-100 iPhone® & Android® Smartphone Teleprompter

Turn your smartphone into a teleprompter that can go anywhere you take your camera. You can easily load scripts, adjust speed, character size and colors. The wired remote let's you control speed and direction for more professional results.

Free Teleprompter Software

The teleprompter software app DV Prompter can be downloaded from the iTunes® app store or Andoid® Market for free.

Selectable Text Size

Phones are small, but your text doesn't have to be. The teleprompter software can display text at virtually any size, to make reading easier.

Many Cameras Supported

The supplied hood and stepping rings from 30.5mm to 94mm allow compatibility with a wide range of existing cameras. The list below shows the included adapters.

- 72mm - 77mm
- 55mm - 77mm
