## UP/DOWN (COUNTDOWN) TIMERS

ESE offers several different styles of "Up/Down" Timer. Of these styles, there are three basic features which should be considered (type of enclosure, size of display and method of preset). The types of enclosure include Desk Mount, Console Mount, Rack Mount and Wall Mount (also suitable for camera mount). The size of the display determines the maximum viewing distance ( $.4^{\prime \prime}=10$ feet, $.56^{\prime \prime}=20$ feet, 1 " $=35$ feet and $2.3^{\prime \prime}=70$ feet). A video display is also available with the ES-306U (see Page 11). The method of preset (for subsequent countdown) utilizes "Thumbwheel" switches, "Push-button" switches or the remote control input connector with externally mounted controls.

## Features:

- Simple Installation \& Operation - One Hundred Minute Timing Range (00:00-99:59)
- Optional "Stop", "Reverse-Count" and "Relay Closure" at Zero (00:00)
- Desk Top, Console, Wall (Camera) \& Rack Mount Enclosures
- Long-Life LED Displays

## THUMBWHEEL PRESETTABLE

Four ESE Up/Down Digital Timers include the "Thumbwheel" Preset Switch. This Thumbwheel offers a very quick and simple method for "Presetting" the display for a subsequent count-down (or up-count). The ES-371, ES-381U and ES-391U have the Thumbwheel and push-button controls mounted on a remote control plate (connected to the unit via a 6' cable). Meanwhile, the ES-302U has all controls mounted on the front of the unit. Note that option ' $D$ ' on the ES-302U moves all controls to the remote control plate as in ES-371, ES-381U and ES-391U. Option 'Q' is also available with the ES-302U'D'.

## PUSH-BUTTON / REMOTE PRESETTABLE

ES-301U, ES-370 and ES-380U are Preset by incrementing the displays of the appropriate digit-pair. Six push-button switches (Up, Down, Stop, Min-Set, Sec-Set \& Reset) are provided with the ES-301U, while access to the controls for the ES-370 and ES-380U are provided on rear-mounted connectors. Available on the ES-370 is option ' $M$ ' which provides front-mounted switches. Option 'D', which includes all six switches mounted on a remote switchplate connected to the unit via a six foot cable (extra cable can be ordered) is available on all three units.
