

QUICKLY TRANSFORM FROM A STANDARD MIC STAND TO A FULLY ADJUSTABLE BOOM STAND

With the new MST-C Microphone Stand design, you can quickly transform from a standard straight microphone stand to a fully adjustable boom stand in seconds. The patented boom storage allows the boom to be concealed inside the extendable upright shaft for use as a standard straight mic stand. The boom will quickly and easily adjust out to convert to a boom arm stand. No extra pieces or parts are required. Because of the 5 Disc, Anti-Slip Cam, the boom arm can hold up to 2 lbs. fully extended. The aluminum alloy base and durable clutch design make this your next and last choice for a microphone stand.

- Quick and easy setup
- Boom will hold 2 lbs
- Durable Construction
- Anti-Slip 5 Disc Cam
- Aluminum Alloy Base
