Gefen®

General Multi Purpose Racktray for Gefen Products
Making Installation Nice and Clean

EXT-RACK-MGPR

The Best Solution For Mounting Multiple Gefen Products

The Gefen Modular General Purpose Racktray is the perfect solution for cleanly mounting multiple Gefen devices in a 1U rack tray. The integrated modular mounts can be resized to fit different Gefen enclosures. There are convenient and secure mounting brackets for Gefen power supplies located in the rear of the tray. Tie-down mounts are also included in multiple locations to aid in organizing all of the cables that will be attached to the Gefen units. The modular tray conforms to the EIA-310 standard and will fit in a standard 1U rack height space.

Features*

• Modular mounts fit an assortment of Gefen products
• Ideal for Gefen Extenders
• Integrated mount for up to 4 Gefen power supplies
• Tie-Down mounts for organization
• 1U Rack height

How It Works

The Gefen Modular General Purpose Racktray has 6 moveable mounting brackets that will hold up to 4 products within the provided 16.5 inches of space. Each padded bracket has a mounting screw than can be loosened and moved to accommodate multiple product sizes. Adjust the bracket to fit the device and retighten the mounting bracket screw. Standard Gefen device power supplies can be mounted just behind the products using the pre-sized power supply mounting brackets. Up to 4 Gefen power supplies can be attached. Once the power supplies and product are secured, connect all accompanying cables. Optionally, tie-downs can be used to bundle and organize attached cables using the tie-down mounts located in multiple locations on the rack tray.

Specifications*

• Maximum Usable Space: 16.5"
• Dimensions: 19" W x 1.75" H x 13.75" D
• Shipping Weight: 2 lbs
