Power	120-240 VAC power supply (included)
Size	1.75" x 7.3" x 19" (4.5 x 18.6 x 48.3 cm)
Weight	5.4 pounds (2.4 kg)

OVERVIEW

JK Audio introduces a modular family of talk show system components. The heart of the system is the new Concierge™ 2x6 switch core, allowing connection of two hybrids across six phone lines. The switch matrix routes six incoming analog phone lines to JK Audio innkeeper 1rx™ or innkeeper 2™ Digital Hybrids. A firmware upgrade is all that is required to make most older model INN1x/INN1rx and INN2 hybrids compatible with this new system.

Innkeeper digital hybrids are globally compliant and compatible with most PBX and VOIP analog line ports.

Concierge adds music on hold input, auxiliary phone integration, and intuitive call control. Two Concierge switch cores can be bridged together, providing six additional phones lines for a 2 hybrid, 12 line system.

Up to eight Guest Module control surfaces can be added to provide remote control of the switch matrix over CAT5 cable. Guest Modules are hot swappable without losing calls, and feature line selection buttons that change color to indicate call status. Guest Modules are available in GM1x6, GM2x6, and GM1x12 desktop and rack mount versions. They feature durable aluminum and steel construction with a sealed rubber keypad.

The smallest system consists of one Concierge switch core, one innkeeper 1rx, and one Guest Module GM1x6 control surface.
