

## Advanced Intelligent DSP IR Receiver 12-Pack

### Configuration:

LP-51-IR-01 Advanced Intelligent DSP IR Receiver 12-Pack (North America)\*

LP-51-IR-02 Advanced Intelligent DSP IR Receiver 12-Pack (Asia, UK)\*

LP-51-IR-03 Advanced Intelligent DSP IR Receiver 12-Pack (Euro)\*

LP-51-IR-04 Advanced Intelligent DSP IR Receiver 12-Pack (Australia)\*

\*01, 02, 03, and 04 designation refers to international plug type (type B, G, E, and I) for the power supply.

### Product Overview:

The LP-51-IR is designed to make it easy to order all the components you need for an exceptional listening experience. Ideal for venues to upgrade an existing IR assistive listening systems or expand a new IR iDSP system with 12 LR-5200-IR iDSP units.

The LR-5200-IR receiver is one of Listen Technologies' new generation of personal listening products, iDSP or Intelligent Digital Signal Processing.

The LR-5200-IR is a high performance IR receiver with extreme sensitivity providing the best pickup and range of any device of its kind! iDSP is the smallest device of its kind, making it easy for end users to wear and operate and easier for the venues to dispense, store and maintain. The integrated neck loop/lanyard with DSP loop driver, improves the listening experience for T-coil users. The advanced green battery technology dramatically reduces costs of ownership and hassles while reducing the number of batteries in landfills. A field replaceable Lithium-ion battery is included with the unit.

The LR-5200-IR has an OLED display which shows unique channel names, battery status, channel status, volume status and charge activation. Listen's programmable channel select button allows users to cycle through active channels, seek to or lock to a channel. Connect the iDSP neck loop/lanyard or ear phones via two 3.5 mm output jacks (receivers can be shared). The Micro USB connection is used with the free iDSP software suite for set up, programming, inventory management, firmware updates and charging via any standard USB port. The LR-5200-IR is compatible with all iDSP accessories.

The result is an exceptional listening experience in places where it's difficult to hear, like: theaters, lecture halls, concert venues, houses of worship, and more.

### Highlights:

- All-inclusive 12-pack is ideal for venues to upgrade an existing IR assistive listening systems or expand a new IR iDSP system
- Complete Intelligent DSP receiver package makes ordering and specifying intelligent receiver solutions easy
- High performance IR receiver with extreme sensitivity providing the best pickup and range of any device of its kind
- Integrated neck loop / lanyard with DSP loop driver improves the listening experience for T-coil users
- Smallest device of its kind makes it easier to wear and for venues to dispense, store and maintain
- Charging tray can be mounted several ways for easy dispensing; optional cable management system further reduces cable clutter
- Limited Lifetime Warranty with hassle-free support
