

DC-Voltage Blocking Coupler

Features

- Used to stop voltage from entering a device
- Protects sensitive test equipment from damage test
- Two bandwidths available for use in CATV and Satellite applications
- Low insertion loss for transparent operation
- High return loss for unsurpassed performance in digital signal environments

Specification

	Bandwidth	Flatness	Insertion Loss	Return Loss
VBC	5 MHz to 1000 MHz	@ 1 GHz > 0.5 dB	@ 40 MHz < 0.3 dB	> 20 dB (min)

Ordering Information

VBC 1 GHz DC-Voltage Blocking Coupler
