

Two Ch. Studio Microphone preamp

MP222

ROLLS

The new MP222 Studio Pro Preamp is a professional two channel microphone preamp. Although having many possible uses, this microphone preamp was designed for studio applications. It has transformer balanced microphone inputs, true +48 Volt Phantom Power and many control options for getting your mic to sound just as you want it to when recording. It is great if you are just looking for studio quality mic processing, or any application where a high quality mic preamp is needed. With an Input Pad, +48 volt phantom power, level control, adjustable Phase, Low Cut filter and a mic-line switch for each channel. The MP222 is truly a studio grade professional Mic Preamp.
