

xVision Video Converter

HDMI to SDI

XVV-HDMI2SDI

Professional equipment in mission-critical applications is all about reliability and confidence. So we started with a clean sheet, and built what may soon become your most trustworthy piece of equipment.

Introducing the world's first video converters *truly* designed for the road. Video converters nowadays are used everywhere on professional A/V events, presentations, live shows and tours and often have a critical role. Yet, they are often the weakest link in the signal chain. Low quality connectors, weak enclosure, external consumer-grade power supply, and overall barebones design that all contribute to a generally unreliable piece of equipment. We wanted to change that, so we designed the xVision Video Converters.

MADE IN CANADA

Features

- ✓ **Integrated power supply** with locking PowerCON connector. Never rely on a cluster of wall-warts again.
- ✓ **Built-in convenience 120V** outlet to power nearby projector, TV, laptop, small video projector... Power bar to power both the converter and device not required anymore.
