WallVIEW HD-USB SR System

HD-USB PTZ Camera, CONCEAL Mount, Active USB 2.0 Extension Cable and Power Extension Module

Based on the remarkable Vaddio ClearVIEW™ HD-USB PTZ Conferencing Camera, the WallVIEW HD-USB SR (short range) System includes many of the features that you would expect out of a WallVIEW branded product. The ClearVIEW HD-USB is the world's first broadcast-quality HD PTZ camera with USB 2.0 output, Ethernet and analog component (YPbPr) outputs built right into the camera. Simply plug the HD-USB camera directly into your PC and there is no need for a separate capture device. The ClearVIEW HD-USB uses standard USB 2.0 UVC drivers, which means that no special USB drivers require installation or provide headaches. As a result the HD-USB camera works seamlessly with any software application running on any OS that supports USB 2.0 devices. All this, and the ClearVIEW HD-USB PTZ cameras are made in the USA.

The ClearVIEW HD-USB camera combines impressive performance with an equally impressive feature set. Because it uses UVC standard drivers for USB 2.0 video, the HD-USB camera is a plug and play camera for many Unified Communications soft client conferencing systems such as Lync® Skype®, Jabber®, and Vidyo® offering a vast improvement over the inexpensive webcam systems available today.

The HD-USB is a high definition conferencing camera suitable for the small, medium or even the largest conferencing space available. The HD zoom lens allows HD-USB to capture a wide angle of view (58.1°) to view everyone at a conference room table, as well as capture an individual from a long distance (3.2°) in a larger room. The motorized zoom lens offers 19X optical zoom and is built around a 1/3-Type Sony® Exmor, progressive scan, high-speed, low noise CMOS image sensor with a total of 1.3 Megapixels for precise and vibrant HD color video images. The HD-USB achieves improved picture quality even in low light environments requiring a minimum illumination rated at an amazingly low 0.7 LUX (F1.6 - 50IRE).

The WallVIEW HD-USB SR system includes the HD-USB camera, the CONCEAL camera mount, an active, port-powered 20m (65.6') USB-2.0 extension cable, the Vaddio Power Extension Module for extending power over CAT-5 cable to the camera and all the USB 2.0 cables, power supplies and mounting hardware that are required to install the WallVIEW HD-USB SR system.
