

VZ-TC100A Aluminum Video Tripod

Features:

- Single-stage, heavy duty legs with adjustable mid-level spreader
- 100mm bowl compatible w/ a wide range of heads, including VZ-H100 & ZG
- Can be attached to the VZ-D100 or Cinetrac Dolly for tracking shots
- For use with cameras up to 30lbs

Assembly:

The lower double-legs slide out and lock to allow a wide range of height adjustment. Make sure when packing the tripod that all legs are locked together using the included clips to prevent shuffling and possible damage.

To lock or unlock the legs for height adjustment, simply pull up the locking clamp and slide the legs out to the desired length. Make sure each lock is secured completely to prevent the leg sections from shifting under the weight of the camera. The spreader can be adjusted for a wider or narrower sprawl.

Rubber feet are included to help the tripod grip many different flat surfaces; the feet are removable for spiking into soft ground, uneven surfaces, or attachment to dollies or other devices.

The VZ-TC100A tripod is covered by a one-year warranty (parts/labor). Please retain your receipt for warranty verification. All returns and repairs must be accompanied by a Return Merchandise Authorization number. Warnings: Do not put more than the recommended weight onto the tripod.
