Installing Components (not included)

WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the combined weight mounted on the FCA802 does not exceed 20 lbs (9 kg).

WARNING: Components must be secured to FCA802 shelf using either adhesive hook and loop squares (T) or screw (Q)! Failure to securely components to shelf may result in serious personal injury or damage to equipment!

NOTE: OPTIONAL: Slots are provided in shelf for strap (not included) to hold components in place. (See Figure 14)

Using Adhesive Squares

1. Use up to eight adhesive hook and loop squares (T) to secure component to shelf. Attach adhesive squares to bottom of component first and then attach corresponding squares to shelf when the exact mounting location has been determined.

Using Screw
