⚠ IMPORTANT WARNINGS AND CAUTIONS!

⚠ **WARNING:** A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.
⚠ **CAUTION:** A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

⚠ **WARNING:** Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer's responsibility to make sure all components are properly assembled and installed using the instructions provided.
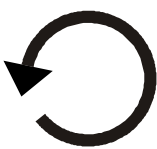

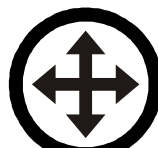

⚠ **WARNING:** Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component. The wall to which the mount is being attached may have a maximum drywall thickness of 5/8" (1.6cm).

⚠ **WARNING:** Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the combined weight of all components located between the CPU Accessory and the display does not exceed the weight limits for the specific wall mount being used. The CPU Accessory weighs 17 lbs (7.7 kg) which needs to be included in this combined weight total.

ASSEMBLY

Assembling CPU Accessory

Attaching Locking Flag

1. Attach locking flag (C) to faceplate (B) using one
    10-24 x 1/2" Phillips undercut machine screw (H), one
    spacer (M), and one 10-24 Nylock lock nut (L).
    (See Figure 1)

NOTE: The locking flag may be installed in one of two
    locations, dependent upon the display mounting
   pattern. (See Figure 1)

Figure 1

Attaching Mounting Buttons

1. Attach four mounting buttons (D) to CPU holder (A) using
   four 10-24 x 1/2" flat head cap screws (J). (See Figure 2)

Figure 2

Placing CPU in CPU Holder

1. Put hook and loop tabs (F) together so there are 3 squares
    of hook and loop.

2. Remove paper from one side of each of the three hook and
    loop squares.

3. Attach hook and loop squares to the CPU. (See Figure 3)

Figure 3

4. Remove paper from hook and loop squares, and press the
    CPU against the CPU holder (A).

5

Attaching Faceplate to CPU Box

1. Attach faceplate (B) to CPU box (A) using six 10-24 x 3/8" button head cap screws (K). (See Figure 4)

Figure 4

INSTALLATION

Installing CPU Holder with CPU to Mount

⚠ **WARNING:** Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the combined weight of all components located between the CPU Accessory and the display does not exceed the weight limits for the specific wall mount being used. The CPU Accessory weighs 17 lbs (7.7 kg) which needs to be included in this combined weight total.

Install the CPU holder, with CPU, onto mount and route wires and cables following the instructions provided with the mount. Cable ties (E) are provided for cable management.

⚠ **WARNING:** IMPROPER INSTALLATION CAN LEAD TO CPU HOLDER FALLING! Make certain mounting buttons on CPU holder are fully engaged in teardrop holes in mount and latching flag on mount is fully closed before installing the display.

Installing Display

⚠ **WARNING:** DISPLAY MAY WEIGH IN EXCESS OF 40 LBS. ALWAYS use two people when lifting and follow proper lifting techniques when installing!

IMPORTANT ! : The following procedure assumes that the proper interface bracket for display being mounted has already been installed on display. If no interface bracket is present on display, install bracket to display using instructions included with interface bracket before proceeding.

To install the display:

1. Ensure that locking flag is in open position. (See Figure 5)

2. While supporting each side of display, align four mounting buttons on display or interface bracket with four teardrop slots in CPU holder (See Figure 5).

3. Lower display firmly into place. (See Figure 5)

Mounting Button
(On interface bracket or display)

Figure 5

4. Ensure mounting buttons are fully seated in teardrop slots.

5. Close locking flag.

6. Connect cables to display.
