

SPEAKER WALL MOUNT— INSTALL GUIDE WMIC2-BRK

For initial setup the speaker system can be assembled and tested on a table top. Then install on the wall.

1. Remove the 2 clips on the speakers.

Wall bracket (Top) and speaker bracket (bottom) with screws for installation. Two sets are included.

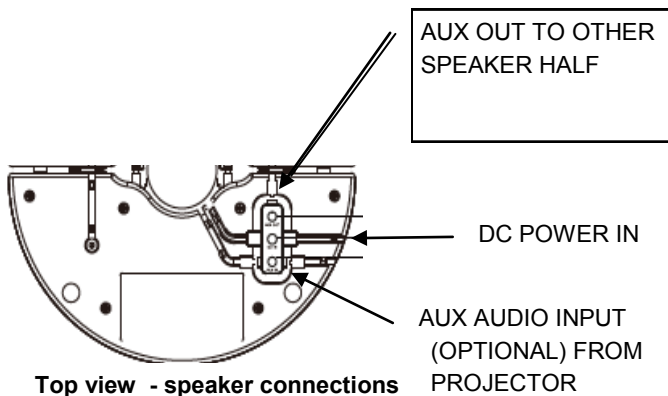

2. Attach bracket to speaker with 4 screws

3. Attach bracket to wall with 3 screws

4. Slide speaker on wall bracket and tighten bottom center screw of bracket to lock in place.

Top view - speaker connections on the powered half .

Repeat mounting procedure with the other half-round speaker.

Then connect the audio cables and power. Use a 3.5mm mini stereo adapter for the remote speaker half.
