

# INSTALLATION INFO

## Try it before you install it!

Some sources don't meet HDMI specifications and may not provide enough power. In that case you may need to order a power inserter

Cable has a **SOURCE** end and a **DISPLAY** end.

Do not **CUT** or **BEND** too tightly

Do not **PULL** on the connector

\* Exceeding Max Pull Strength Voids Warranty \*

To pull cable through conduit:

- Slide the connector inside a cable pulling mesh/sock.
- Tape the end of mesh to the cable jacket
