Notes:

Due to the way the Sony L 500 Series and 300 series batteries are designed, Sony MP-F330/F570/F550 batteries will not work on the left battery slot of the IB508-v2.

When the battery indicator shows only one dot, we highly recommend switching out the battery. Allowing the battery indicator to go below one dot may result in low voltage abnormalities that may cause random LEDs to shut off.
