ONLYX Series LED User Guide

OYB5

● Product Information

Thank you for buying the Onyx 5 Bi-Color Aluminum LED Light from Ikan. Please carefully read the guide before operating the product.

The Onyx Half x 1 Bi-Color Aluminum LED light is fitted with 900 high quality LED lights. The aviation grade aluminum panel design allows for better heat ventilation. The OYB5 provides a flicker-free experience when adjusting the brightness (10%-99%) and color temperature (3200K-5600K). The OYB5 can be controlled remotely with either the included remote control or DMX via the Ethernet port. Having the option of being powered either by the power adapter or two Sony "L" style batteries, the OYB5 can meet both your studio or on the field needs.
