

ezEX-RJ45® Termination System

ezEX-RJ45® Connectors

1st of its kind Interchangeable EXO Die™ and reversible too!

In today's networks, twisted pair cables are demanding more speed and bandwidth. To help meet these requirements, Cat5e/6/6A cables have increased in size. Both the outer diameter of the cable and the insulation diameter of the conductors are larger and vary by manufacturer, making cable and connector compatibility a challenge. The new patented **ezEX-RJ45® Termination System** is the solution — providing greater cable to connector compatibility to meet higher performance demands. The ezEX-RJ45® connectors feature a unique integrated Hi-Lo stagger load bar and allows 'big' conductors to pass through the front end of the connector making it easy to verify the wiring sequence before terminating.

ezEX-RJ45® Connectors

- Simple one piece/pass through design, no bars or liners
- Rated up to 10 Gigabit for superior performance
- Works with solid or stranded conductors from 24-22 AWG
- FCC, RoHS 2 & UL compliant
- Made in USA
