PRECAUTION

Before operating this unit, please read this manual carefully.

	<p>The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.</p>
<p>WARNING :</p> <p>The unit is operated at dangerous voltages. The unit may only be opened by an authorized specialist.</p> <p>All maintenance and servicing work must be carried out by an authorized company. Repairs that are carried out incorrectly could result in fatal injuries to the user.</p>	<p>The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.</p>

WARNING:

To reduce the risk of any electric shock, please do not remove the back cover. No user serviceable parts inside. Refer any service matters to qualified service personnel. To prevent fire or shock hazard, do not expose the rear of the set to rain or moisture. Do not rub, clean or hit the Active Matrix LCD with object that may scratch, mark, or damage the Active Matrix LCD permanently.

CAUTION:

Unauthorized tampering with the inside of the monitor invalidates the warranty.

The manufacturer shall not warrant for any damage caused by improper maintenance and/or repair or work by third parties.

Important safeguards for you and your new product:

Your product has been manufactured and tested with your safety in mind. However, improper use can result in potential electrical shock or fire hazards. Please read and observe the following safety points when installing and using your new product and save them for future reference.

1. **Read Instructions**
2. **Follow Instructions**
All operating and use instructions should be followed.
3. **Retain Instructions**
The safety and operating instructions should be retained for future reference.
4. **Notice Warnings**
All warnings on the product and in the operating instructions should be adhered to.
5. **Cleaning**
Disconnect the unit from the mains before cleaning the unit. Do not use abrasive cleaners. Use a damp cloth ONLY for cleaning.
6. **Water and Moisture**
Do not use this product near water.
7. **Transporting Product**

This product should be moved with care. Quick stops, excessive force and uneven surfaces may cause the product damages.

8. Accessories

*Do not use accessories not recommended by **PLURA Inc.** as they may cause hazards.*

9. Ventilation

Do not block any of the ventilation openings.

Install in accordance with the manufacturer's instructions.

10. Power Sources

This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply, consult your power supply company.

11. Power Lead Polarization

This product is equipped with a three-wire grounding-type cord. This is a safety feature. Do not use any other type power cord.

12. Power Cord Protection

Power-supply cords should be dressed so that they are not likely to be pulled or pinched by items placed upon or against them.

13. Lightning

For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet. This will prevent possible damage to the product due to lightning and power-line surges.

14. Grounding the product

This product must be grounded properly to comply with the safety regulations in the country of use. If you are unsure of these regulations, please consult a qualified electrician.

15. Servicing

Do not attempt to service this product by yourself as opening or removing covers may expose you to dangerous voltages or other hazards. Refer all servicing to qualified service personnel.

16. Damage Service Required

Isolate this product from the mains and refer to qualified service personnel under the following conditions:

- A. *If the power-supply cord or plug is damaged.*
- B. *If the front LCD front has been damaged.*
- C. *If the product does not operate correctly by following the operating instructions. Use only the user control buttons any improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.*
- D. *If the product has been dropped.*
- E. *If the product exhibits a distinct change in performance.*

17. Safety Check

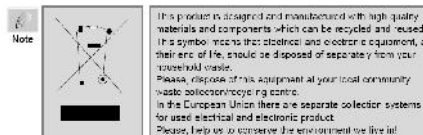

Upon completion of any service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition and the warranty seal is provided.

18. Mounting

The product should be mounted on a wall as recommended in the instructions.

19. Power

This set operates on an AC supply; the voltage is as indicated on the label on the Manual. This appliance must be earthed at all times through the chassis as well as through the power lead.

OVERVIEW

UNB Series is constructed with the latest panel technology S-IPS, the NEW series abbreviation called after its unique panel bezel style and design “Ultra Narrow Bezel”, exceptional viewing angles and 10 bit color depth to enhance image quality for all types of installations. In addition, direct LED backlight technology ensures lower power consumption and improves brightness uniformity, dimming capabilities and contrast ratio.

The ultra narrow bezel panels are virtually seamless, have small pixel pitch – just 0.63 mm i.e. images are sharp and clear at any distance. The ultra narrow bezel is only 3.5mm for side by side seamless displays.

This series was introduced and designed for Broadcast, Commercial, digital signage and A/V video wall applications.

The Plura UNB series can be control up to 100 monitors via LAN IP network and/or RS232 daisy chains using exclusive Plura Wall express software. The UNB series supports SDI, HDMI & Display Port inputs capability, up to UHD (3840 x 2160) resolution through the HDMI daisy chain capability to show one image across the entire video wall. Therefore with 4 x 4 UNB-255 setup and one HDMI UHD input looped through the 4 x UNB-255 monitors can accomplish total screen size of 110” diagonal with TRUE UHD resolution and displaying TRUE UHD image. This is significant and noteworthy.

ADVANCED FEATURES

UNB-4K Series has the following advanced features:-

- 1- SDI, HDMI & Display Port inputs capability, up to UHD (3840 x 2160) resolution.
- 2- Ultra Narrow Bezel - Minimal bezels width 0.05” (1.2mm) B & R, 0.09” (2.3 mm) T & L.
- 3- Total bezel width 0.14” (3.5 mm) side by side displays.
- 4- Direct LED direct backlight source improves brightness uniformity.
- 5- Broadcast & Professional-Grade quality.
- 6- Designed for 24/7 operation, featuring reliable power supply.
- 7- S-IPS panel technology offers wide viewing angles ideal for all applications.
- 8- Color calibration solution ensures color uniformity across the entire wall setup.
- 9- Wall Express control system via serial IP connectivity designed to easily manage any number of monitors from a remote computer location.

) **PLURA S3 PLEDGE**

Service • Support • Solutions

Plura takes its reputation very seriously when designing, manufacturing and delivering all our products. We strive to build the best solutions with the flexibility and reliability required for 24/7 operation capability. Our new UNB-4K series allow you to display, monitor and control your digital and other media sources immediately and in real time. UNB-4K solution offers color accuracy and reliable display solution to your management, engineering & monitoring team without any compromise. We take each display monitor and control room project seriously and deliver it uniquely.

3. IR-Remote controller Descriptions

Button Name	Description
Power	▶ Power On/Off
Menu	▶ Same as "Menu key" on keypad.
Up	▶ Same as "Up key" on keypad
Down	▶ Same as "Down key" on keypad
Right	▶ Same as "Right key" on keypad
Left	▶ Same as "Left key" on keypad
Enter	▶ Same as "Select key" on keypad
EXIT	▶ Exit OSD menu
Info	▶ Displays input source information
Sleep	▶ Set or disables sleep timer value
Mute	▶ Toggles between sound status of speaker/headphone & mute.
Source	▶ Activates & Deactivates OSD source menu.
ARC	▶ Activates & Deactivates OSD aspect ratio control.
STILL	▶ Toggles picture status between motion and still image.
0~9	▶ Enter digit value to Active SET ID
BLUE	▶ Set Active SET ID
RED	▶ Delete Active SET ID

I/O REAR PANEL

1. I/O Rear Panel Description

Interface	Description
HDMI I/P	High Definition Multimedia Input – up to 3840x2160@60Hz (HDMI2.0)
HDMI O/P	High Definition Multimedia Loop Output
DP I/P	DISPLAYPORT Input – up to 3840x2160@60Hz (v1.2a)
RS-232 I/P	Monitor control via RS232
RS-232 O/P	RS-232 Loop Output to control series of monitors
HD-SDI I/P	Serial Digital Interface Input – 1920x1080
HDMI O/P	Serial Digital Interface Loop Output – 1920x1080
USB	Download – Software Update Port
Ethernet	Control Via Ethernet

MENU OVERVIEW

In this menu system, there are several ways to customize the menu settings provided.

Most menus consist of three levels to make any changes, however sometimes settings requires greater depth. If you reach the third level of the MENU system and fourth level is necessary. The fourth level can be accessed by pressing OK button

1) To display & hide the Menu:

Press the MENU button on the Remote Control to display. A second press of the MENU button or a pressing the EXIT button will hide the menu.

2) To go to the next level:

Press OK (or Right arrow button) on the Remote Control.

3) To go back to the previous level:

Press MENU (or Left arrow button) on the Remote Control.

4) To go to the next menu:

Press Down arrow button on the Remote Control.

5) To go to the previous menu:

Press Up arrow button on the Remote Control.

Hue

Saturation

- Adjust the picture settings to suit your preference and viewing conditions.

1. Press the MENU button to select the PICTURE mode.
2. Press the OK button or RIGHT button to select Contrast menu.

(Press the UP / DOWN buttons to navigate through the menu.)

3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP / DOWN buttons to make appropriate adjustments.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.
 - Hue / Saturation: Only available in YCbCr input.

b. Aspect Ratio

- Selects the screen size.

1. Press the MENU button to select the PICTURE mode.
2. Press the OK button (or RIGHT button) and then DOWN button to select Aspect Ratio menu.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP / DOWN buttons to select desired option:

[Full Screen, Auto, 4:3, 5:4, 16:9, 1:1]

5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

c. Auto Dimming

- Automatic dimming controls by light sensor in Dimming menu.

1. Press the MENU button to select the PICTURE mode.

2. Press the OK button (or RIGHT button) and then DOWN button to select Auto Dimming Mode menu.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP / DOWN buttons to select desired option:
 - Off** : Adjust the dimming level by the manual operation.
 - On** : Adjust the dimming level by the data of light sensor. (Light Ambient Sensor Option only)
 - ECO** : Adjust the dimming level of 50.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

d. Dimming

Color	Red Gain	255 ■■■■■■■■■■
Video Wall	Green Gain	255
PC-RGB	Blue Gain	255
Audio	Gamma	2.2
Heat Control	Input Color Format	Auto Select
Network	Color Range	Auto Select
Timer		
Other Setting		

- Adjust the color on the screen.
1. Press the MENU button and then DOWN button to select the Color.

2. Press the MENU button and then DOWN button to select the Red/Blue/Green Gain.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
 - If you change the value of the item, the Color Temperature will automatically switch to User mode.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

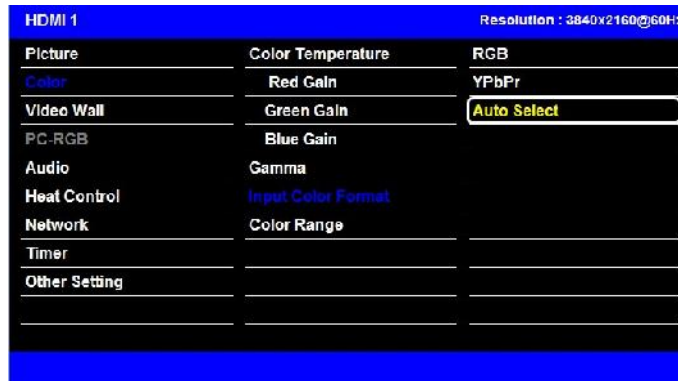

c. Gamma

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Color Temperature	2.0
Color	Red Gain	2.2
Video Wall	Green Gain	2.35
PC-RGB	Blue Gain	2.4
Audio	Gamma	2.6
Heat Control	Input Color Format	
Network	Color Range	
Timer		
Other Setting		

- Adjust the Gamma values.

1. Press the MENU button and then DOWN button to select the Color.
2. Press the MENU button and then DOWN button to select the Gamma.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP & DOWN button to select desired option. [\[2.0, 2.2, 2.35, 2.4, 2.6\]](#)
 - We recommend the Plura Calibration process for setting Gamma value
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

d. Input Color Format

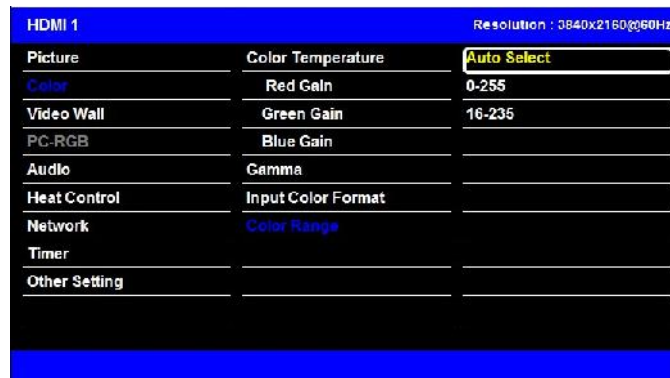

- To select the proper color space values. [RGB / YPbPr422 (YPbPr444)]

1. Press the MENU button and then DOWN button to select the Color.
2. Press the OK button (or RIGHT button) and then DOWN button to select Input Color Format menu.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.

[RGB, YPbPr, Auto Select]

5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

e. Color Range

- Check the color space of the input signal, to adjust the screen. [0~255, 16~235]
- The change to this function is not recommended.

1. Press the MENU button and then DOWN button to select the Color.
2. Press the OK button (or RIGHT button) and then DOWN button to select Color Range menu.
3. Press the OK button or RIGHT button to select Adjustment menu.

4. Press the UP or DOWN button to select desired option.

[Auto Select, 0-255, 16-235]

5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

4. Video Wall Settings

- This menu item is for MULTI WALL Stack Application.

HDMI 1		Resolution : 3840x2160@60Hz
Picture	X MAX	1
Color	Y MAX	1
Video Wall	X Position	1
PC-RGB	Y Position	1
Audio	X Gap	0
Heat Control	Y Gap	0
Network	Set ID	11
Timer		
Other Setting		

1. Press the MENU button and then DOWN button to select the Video Wall Settings.

2. Press the OK button (or RIGHT button) and then DOWN button to select Second Settings.

3. Press the OK button or RIGHT button to select Adjustment menu.

4. Press the UP or DOWN button to select desired option.

5. Press MENU button or LEFT button to return to the previous menu.

Or In order to come out at a time, press the EXIT button.

) Video Wall Layout Settings

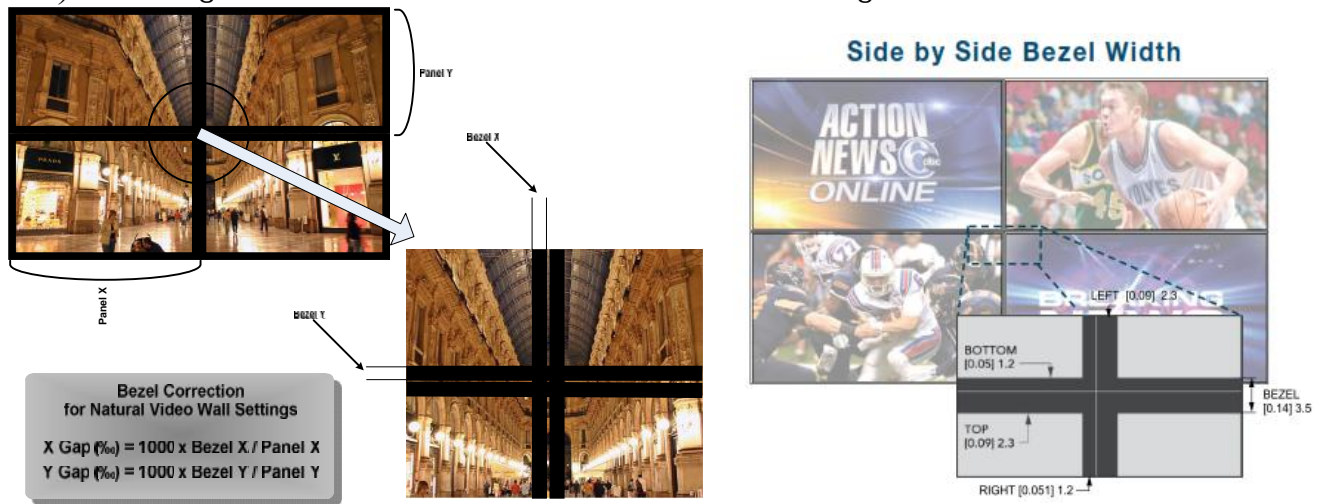

X Max : Maximum number of column tiles to divide video image. (Support up to 11step)

Y Max : Maximum number of row tiles to divide video image. (Support up to 11step)

X position : Coordinate of video image's column position.

Y position : Coordinate of video image's row position.

) Setting the Bezel Corrections for Natural Tiled Image

X Gap : Proportional Value of Vertical Bezel to Panel size by Per-mil unit.

Y Gap : Proportional Value of Horizontal Bezel to Panel size by Per-mil unit.

) Set ID & Active Set ID

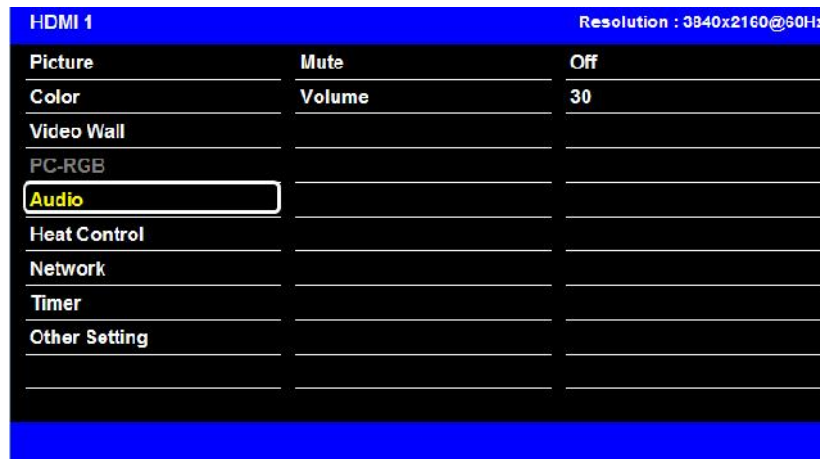

- SET ID number is the number of the Monitor based on the monitor location within the wall layout to be able to control Via RS-232 (TCP/IP)

- If total number of monitor is 15, then the Active SET ID must set to 15.

1. Press the BLUE button and then use 0~9 button to select the Active SET ID.
2. If Press the RED button, delete ID number.

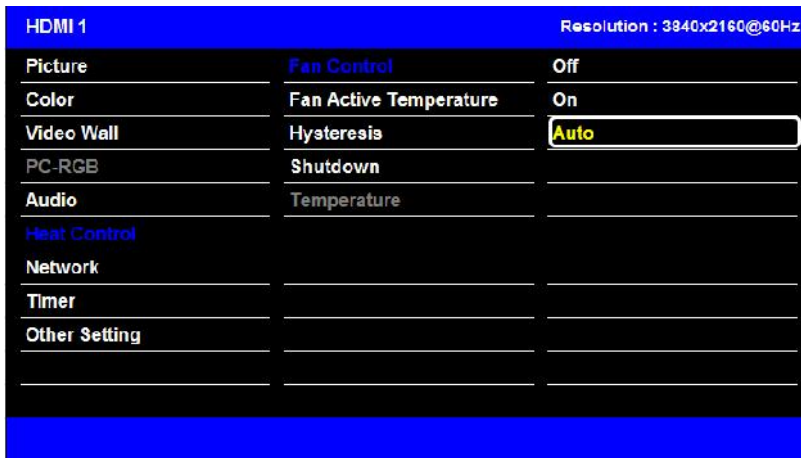

5. Audio

1. Press the MENU button and then DOWN button to select the Audio Settings.
2. Press the OK button (or RIGHT button) and then DOWN button to select Second Settings.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

6. Heat Control Settings

a. Fan Control

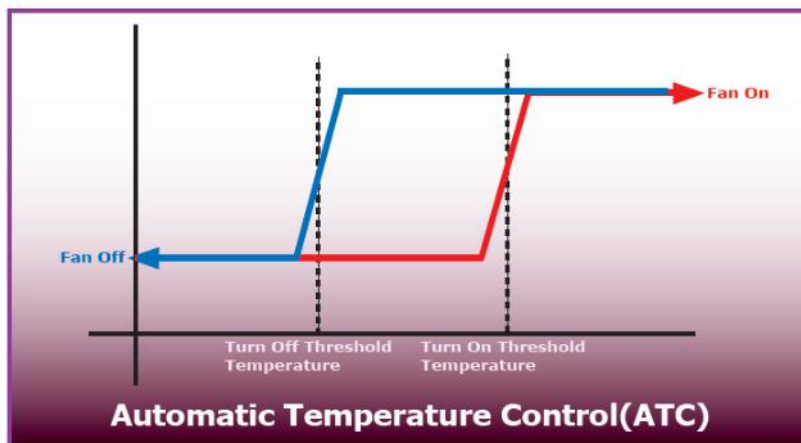

1. Press the MENU button and then RIGHT button to select the Heat Control Settings.
2. Press the OK button (or RIGHT button) to select Fan Control menu.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

Off : Set the fan is always off, regardless of the value of the temperature sensor.

On : Set the fan is always on, regardless of the value of the temperature sensor.

Auto : Fan is automatically driven according to the temperature setting.

b. Heat Control

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Fan Control	Auto
Color	Fan Active Temperature	50.0°C
Video Wall	Hysteresis	2.0°C
PC-RGB	Shutdown	85.0°C
Audio	Temperature	37.0°C
Heat Control		
Network		
Timer		
Other Setting		

1. Press the MENU button and then DOWN button to select the Heat Control Settings.
2. Press the OK button (or RIGHT button) and then DOWN button to select Second Settings.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

Fan Active Temperature: Adjusts fan temperature in Celsius degree. Available only when the Fan Control setting is set to **Auto**.

Hysteresis: Variable range of Fan on/off interval.

Shutdown: Adjust shutdown mode temperature by Celsius degree. When and if the current temperature reaches the shutdown temp, the monitor enters power shut down mode.

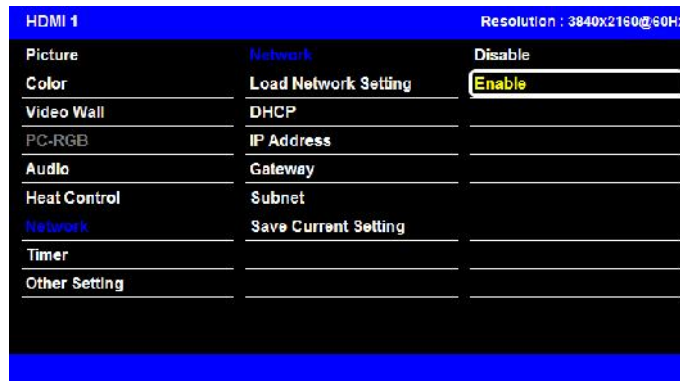

Temperature: The internal temperature of the unit measured by the main board sensor.

7. Network

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Network	Enable
Color	Load Network Setting	
Video Wall	DHCP	On
PC-RGB	IP Address	174.168.10.7
Audio	Gateway	174.168.10.1

Other Setting		

e. Save Current Setting

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Network	Enter
Color	Load Network Setting	
Video Wall	DHCP	
PC-RGB	IP Address	
Audio	Gateway	
Heat Control	Subnet	
Network	Save Current Setting	
Timer		
Other Setting		

1. Press the MENU button and then DOWN button to select the Network.
2. Press the OK button (or RIGHT button) and then DOWN button to select Save Current Setting.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.
 - To save the current settings to LAN sub board.

8. Timer Settings

a. Current Time

- If current time setting is incorrect, reset the clock manually.
- When the AC POWER is OFF, the current time will be memorized.

1. Press the MENU button and then DOWN button to select the Timer Settings.
2. Press the OK button (or RIGHT button) and then DOWN button to select Second Settings.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

b. Timer Settings

1. Press the MENU button and then DOWN button to select the Timer Settings.

2. Press the OK button (or RIGHT button) and then DOWN button to select Second Settings.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

On Time: Set the time for the monitor to start automatically.

Off Time: Set the time for the monitor to power off automatically.

9. Other Settings

a. Language

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Language	English
Color	Menu Transparency	20
Video Wall	OSD Time	15 sec
PC-RGB	Power Save Mode	Off
Audio	Local Dimming	On
Heat Control	MFC	Off
Network	Reset	
Timer	Software Update(USB)	
Other Setting	Version	v0.02 / Jan 14 2016

- Menu Language can be altered or changed based on the user preference.

1. Press the MENU button and then DOWN button to select the Other Settings.
2. Press the OK button (or RIGHT button) to select Language menu.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

b. Menu Transparency

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Language	English
Color	Menu Transparency	20
Video Wall	OSD Time	15 sec
PC-RGB	Power Save Mode	Off
Audio	Local Dimming	On
Heat Control	MFC	Off
Network	Reset	
Timer	Software Update(USB)	
Other Setting	Version	v0.02 / Jan 14 2016

– Set the OSD transparency.

1. Press the MENU button and then DOWN button to select the Other Settings.
2. Press the OK button (or RIGHT button) and then DOWN button to select Menu Transparency menu.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

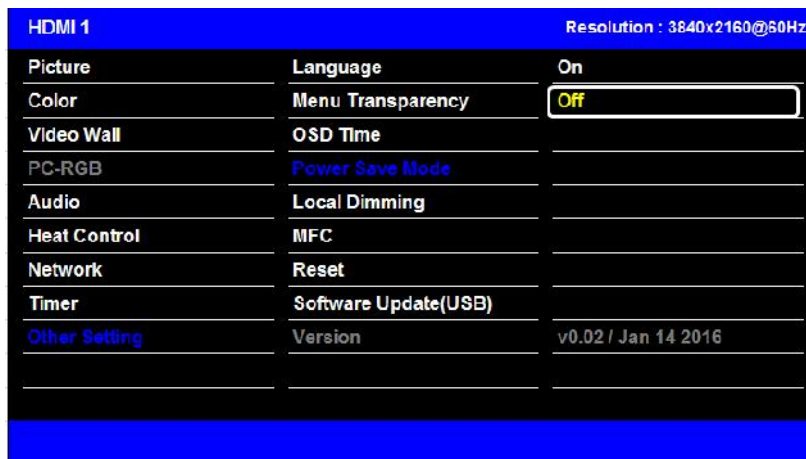

c. OSD Timeout

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Language	Off
Color	Menu Transparency	5 sec
Video Wall	OSD Time	10 sec
PC-RGB	Power Save Mode	15 sec
Audio	Local Dimming	20sec
Heat Control	MFC	60 sec
Network	Reset	
Timer	Software Update(USB)	
Other Setting	Version	v0.02 / Jan 14 2016

– Set the OSD duration

1. Press the MENU button and then DOWN button to select the Other Settings.
2. Press the OK button (or RIGHT button) and then DOWN button to select OSD Timeout menu.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

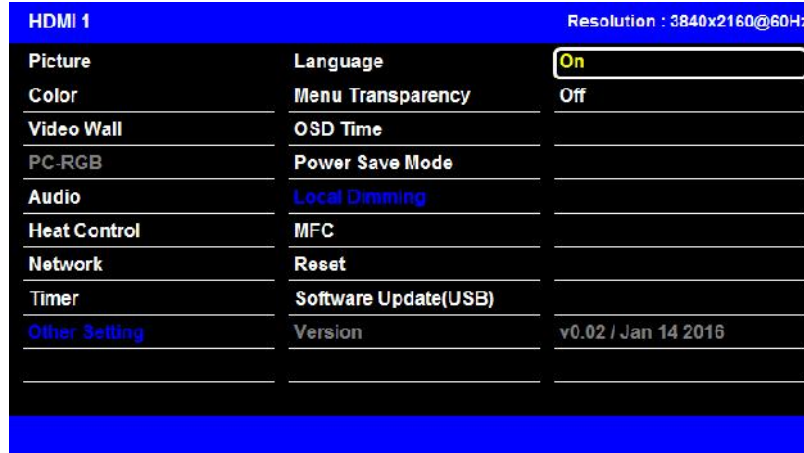

d. Power Save Mode

- Shut down the monitor if the input source is not present at period of time.

1. Press the MENU button and then DOWN button to select the Other Settings.
2. Press the OK button (or RIGHT button) and then DOWN button to select Power Save Mode menu.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

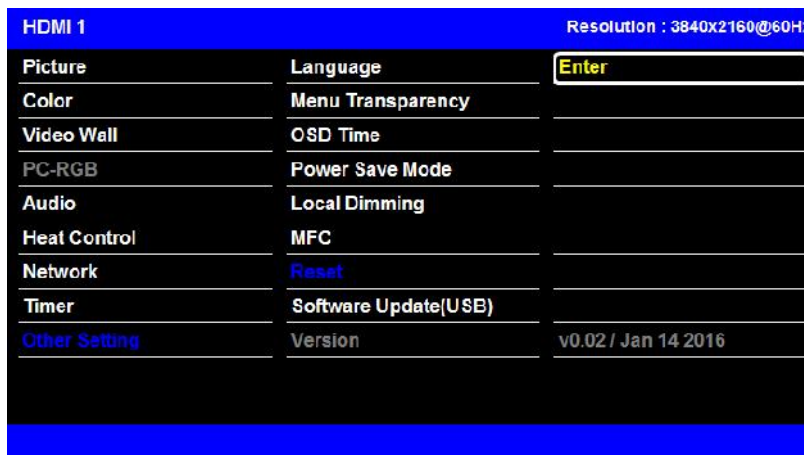

e. Local Dimming

- Set the local dimming for the panel.

1. Press the MENU button and then DOWN button to select the Other Settings.
2. Press the OK button (or RIGHT button) and then DOWN button to select Local Dimming menu.
3. Press the OK button or RIGHT button to select Adjustment menu.
4. Press the UP or DOWN button to select desired option.
5. Press MENU button or LEFT button to return to the previous menu. Or press the EXIT button.

f. Reset

- Restore factory Settings

1. Press the MENU button and then DOWN button to select the Other Settings.
2. Press the OK button (or RIGHT button) and then DOWN button to select Reset menu.
3. Press the OK button or RIGHT button to select Enter.
4. Press the OK button to select.

g. Software Update

- Software update function using the USB MEMORY.

1. Save the update file to a USB memory stick. (ex) mergy_151223.bin
2. Insert the USB stick into the socket for download.
1. Press the MENU button and then RIGHT button to select the Other Settings.
2. Press the OK button or RIGHT button and then DOWN button to select Software Update menu.
3. Press the OK button to select Enter.
4. Normal Progress

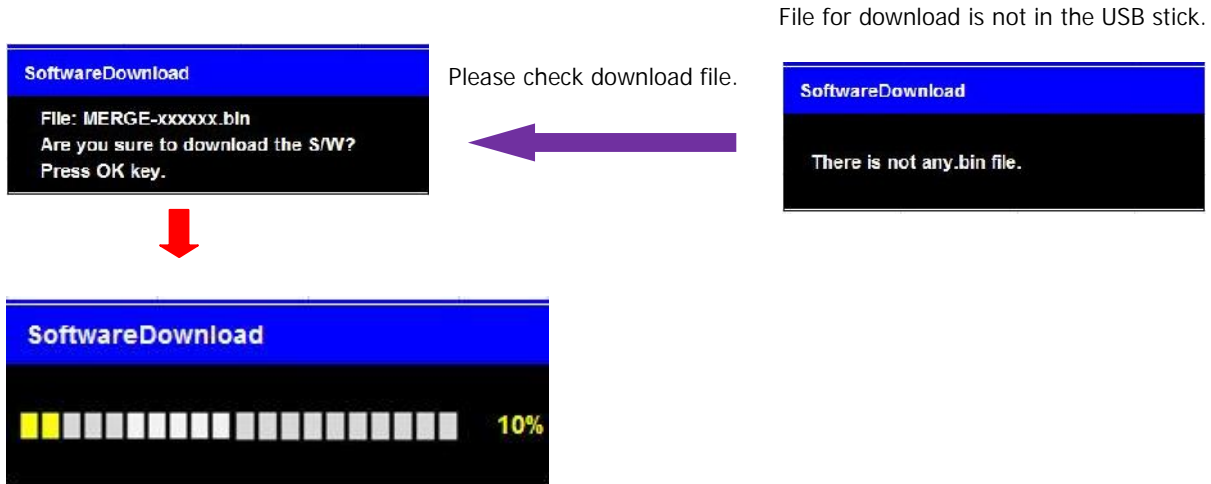

check the USB stick.

USB stick do not plugged in the socket.
(Not be recognized.)

5. When the update is successfully completed, the monitor will restart automatically.

h. Version

HDMI 1		Resolution : 3840x2160@60Hz
Picture	Language	English
Color	Menu Transparency	20
Video Wall	OSD Time	15 sec
PC-RGB	Power Save Mode	Off
Audio	Local Dimming	On
Heat Control	MFC	Off
Network	Reset	
Timer	Software Update(USB)	
Other Setting	Version	v0.02 / Jan 14 2016

- Check the information of the current Firmware.

1. Press the MENU button and then DOWN button to select the Other Settings.

(Version #/ Date)

Serial Control Protocol.

Notice

(1) CURSOURCE Setting Value

AV1:1, AV2:2, SVIDEO:4, COMP1:7, HDIM:11, DVI12, DSUB:10, MMP:15

(2) MAX_ILLUMINANCE Settings

Setting Value = Ambient Level (by LUX) / 100

Ex) Desired Ambient is 10000 Lux, Setting is 100 (= 10000 / 100)

(3) MIN_ILLUMINANCE Settings

Setting Value = Ambient Level (by LUX) / 10

Ex) Desired Ambient is 200 Lux, Setting is 20 (= 200 / 10)

(4) DIM_LEVEL Settings

Dimming is controlled by Brightness Settings.

(5) TEMPERATURE Settings

Setting Value = Desired temperature(by Celsius) x 2 + 60

Ex) Desired temperature is 60°C, Setting is 180 (= 60 x 2 + 60)

(6) TEMP_HYSTERESIS Settings

Setting Value = Desired Hysteresis(by Celsius) x 2

Ex) Desired Hysteresis is 2°C, Setting is 4 (= 2 x 2)

(7) ILLUMINACE

Current lux/10. If Cur_lux>2550 then Value=255

(8) Read only Command

(9) Gap Settings

Setting Value =(int) (1000 * Gap / Active)

Active Gap

4. Control Command Example

a. Set Input Source to RGB Input

b. Read Power State
