CAMERA REMOTE CONTROL COMPATIBILITY INFORMATION
PTZ Camera

Robotic PTZ (pan-tilt-zoom) cameras eliminate the need for multiple operators, provide enhanced broadcast-quality coverage, and can be placed in discreet locations thanks to their small size. V-160HD, V-60HD, VR-120HD, VR-6HD, VR-50HDMK2, XS-62S, and V-600UHD feature integrated support for select Canon, JVC, Panasonic, Sony, PTZOptics, Avonic, and VISCA-compatible PTZ LAN cameras.

New model line JVC KY-PZ510, and Sony SRG-X40UH, SRG-A40, SRG-A12 and FR7, are added to the compatibility Information.

COMPATIBILITY **INFORMATION**

SR-20HD
Version 1.30

- Operation has been changed to enable setting the encoder behavior during streaming or recording. When working with video containing much movement, such as sports or games, setting the Encode Mode to "Motion" enables streaming or recording of smoother video.
- A function has been added that enables audio input to be made monaural to LINE IN and HDMI IN. "L Only," "R Only," and "LR Mix" can be selected as the method of conversion to monaural
- For more detailed settings, the video bitrate unit has been changed from 1,000 kbps to 100 kbps.
- Stability during streaming and recording has been improved.

SR-20HD **UPDATE**

P-20HD
Version 1.23

- Bug Fix - Synchronizing with V-60HD.

P-20HD **UPDATE**

VRC-01
Version 1.07

- Bug Fix - Reduce sound noise when satellite camera is connected and configured a particular delay setting.

VRC-01 **UPDATE**

VR-120HD
Version 1.12

- Remote control software for macOS and Windows.
- Target video bit rate of streaming and recording function can be set by 100kbps.
- Bug Fixes

VR-120HD **UPDATE**   NEW **RCS GUIDE**

VR-400UHD
Version 1.04

- Improved USB Streaming connectivity and system stability.
- Bug Fixes.

VR-400UHD **UPDATE**
