SES-X-RM2 Rack Mount Panel Installation

Mount 4 SES-X-FA2LRL01 or SES-X-FA2LRT01 Audio Fiber Transmitters and/or Receivers
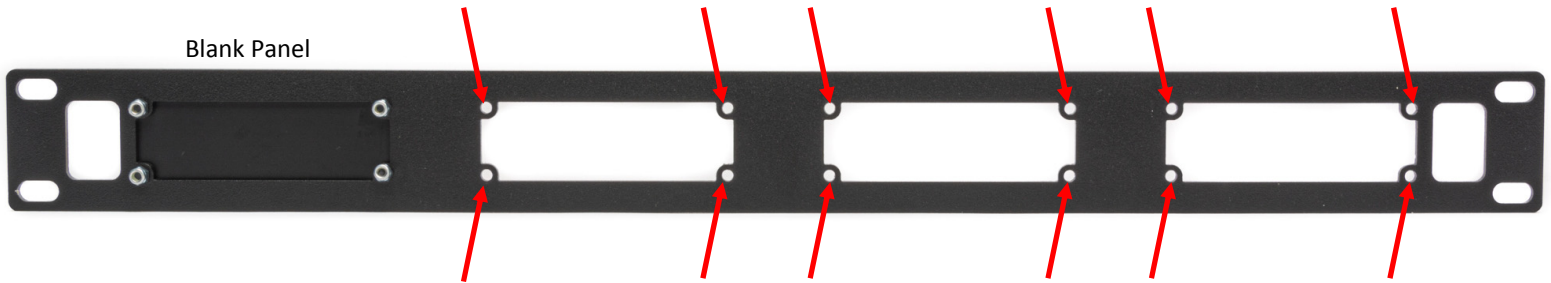

For Front or Back of the Units

STEP 1

Remove the four screws at the corner of each unit to be installed.

STEP 2

Place the transmitter or the receiver behind the panel so that the screw holes line up. If you do not plan to use all four spaces, you can attach the included blanks to those spaces.

Blank Panel

STEP 3

Place the 1/2 inch screws included with the panel through the panel into the device and tighten each screw.
