AMX9A

AUDIO MONITOR SYSTEM

This is one of many products in the SELECT SERIES line of high quality and high performance broadcast products from WARD-BECK SYSTEMS.

The AMX9A is a versatile analog audio mixing monitor system. This unit will allow the monitoring and mixing of nine mono audio signals.

Front panel includes nine independent level controls, one for each input, a master level control, and a separate line output control. A convenient front panel mounted T/R/S headset jack is also provided. The speaker feeds are normalled through this jack to automatically mute the speakers when a headset is plugged in.

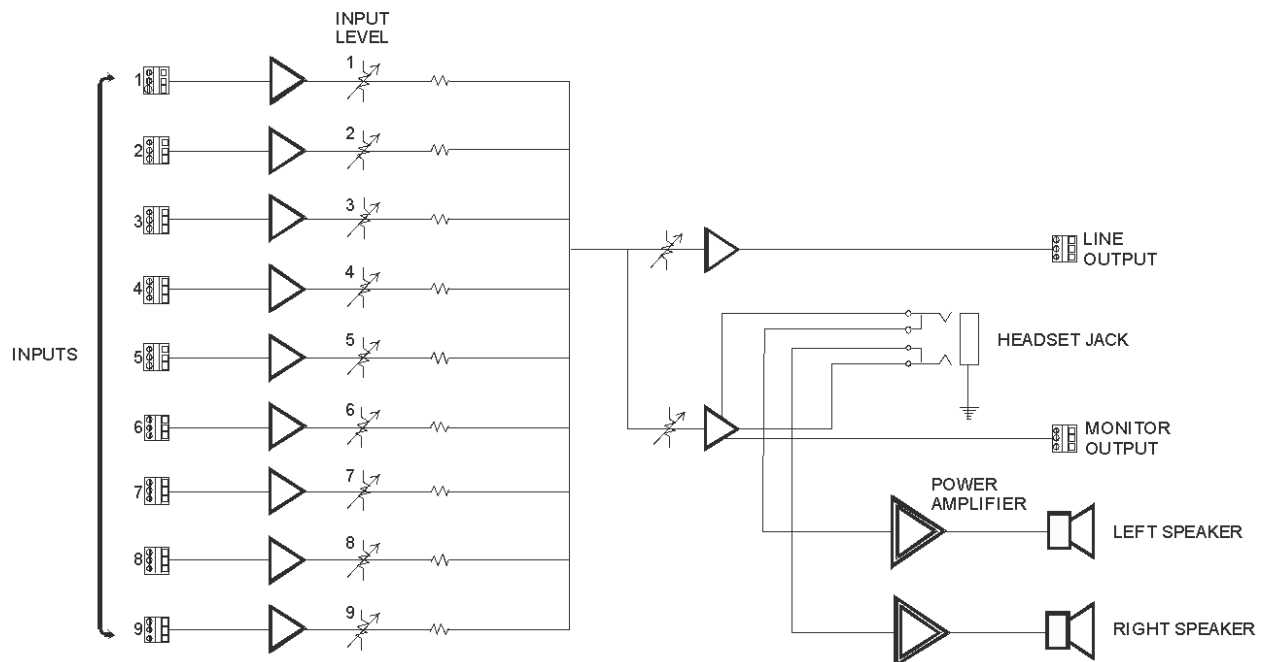

Connections to the AMX9A are made on convenient pluggable screw terminals for the inputs and outputs.

SPECIFICATIONS

Input Impedance	greater than 20k Ω balanced
Input Level	+22dBu max
Input Gain	OFF to +17dB
Noise	better than 85 dBu @ unity gain
Output Impedance	60 Ω balanced
Output Level	+24 dBu max

WARRANTY

All Ward-Beck Systems Inc. products are warranted against defective materials and workmanship for a period of one year from the date of shipment.

Ward-Beck Systems Inc. will repair or replace, at its option and without charge, all said products or parts thereof which upon factory inspection prove to be defective during the warranty period, provided that:

1. The original serial numbers are intact and have not been tampered with.
2. The purchaser shall return any equipment or parts thereof to Ward-Beck Systems Inc. only after obtaining prior authorization and shipping instructions from the factory. (Ward-Beck Systems Inc. reserves the right to inspect or repair equipment on the purchaser's premises).
3. The purchaser assumes the obligation for all expenses in connection with the shipping and return of such goods, once authorization has been obtained.

This warranty does not cover items normally considered expendable, such as fuses and lamps.

This warranty does not cover damages caused by misuse, accident, neglect, unauthorized alteration, repair by unauthorized personnel, or damage caused by an act of God, war, or civil insurrection.

In no event shall Ward-Beck Systems Inc. be liable for consequential damages. Ward-Beck Systems Inc. shall have the rights to final determination as to the application of this warranty.

Ward-Beck Systems Inc. reserves the right, at any time and without notice, to make changes in its equipment, components, specifications or designs, as may be warranted by progress in state-of-the-art technology.

Ward-Beck Systems Inc. reserves the right to make design changes, additions to, and improvements in its products, without obligation to install such revisions in products previously manufactured.

The warranty set forth herein is in lieu of all other warranties expressed or implied, including the warranties of merchantability and fitness.
