- 7 COAXIAL OUTPUT: Connect to he Coaxial input port of audio amplifier or receiver
- 8 OPTICAL OUTPUT: Connect to the TOSLINK (optical fiber) input port of audio amplifier or receiver

NOTE: Use USB or DC/5V Power Inputs but NOT BOTH.

SPECIFICATIONS	
Operating Temperature	32°F-104°F
Sampling Frequencies	Up to 192kHz
Certification	CE, RoHS
Power Consumption	1W
Dimensions	2.6 x 2.16 x 0.78 in
Weight	1.41 oz
Includes	5V/1A Power Adapter

Power Adapter

SAFETY PRECAUTIONS

1. To prevent fire or shock hazard, do not expose this equipment to high humidity and/or dust. Do not use in an unprotected outdoor installation nor any area classified as overly damp or wet.
2. The temperature for installation should be kept between 32°F to 140°F (0°C to 60°C). Avoid direct sunlight exposure or extreme changes of temperature over a short period of time.
3. Do not disassemble the unit as this voids the warranty.
4. Do not drop the unit and avoid heavy impact.
5. This unit should not be permanently installed unless proper ventilation is provided. Any enclosure openings must not be blocked or covered as they protect the unit from overheating.
6. Before cleaning, turn off the power and unplug the unit from all connections. Use a damp cloth. Do not use liquid or aerosol cleaners.
7. Do not overload outlets and extension cords as this may result in a risk of fire or electric shock.
8. Enclosure entry is dangerous. Never push objects of any kind, including liquids, into this unit through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock.
9. Do not attempt to open or service this unit yourself as opening or removing covers may expose you to dangerous voltage and other hazards.
10. There are no user-serviceable parts inside the unit. If the unit requires service contact your authorized dealer, or an authorized repair service company.
