WHY USE RECHARGEABLE BATTERIES?

Save Money—While rechargeable batteries cost more initially, they can be reused hundreds of times and last for years.

Protect the Environment—Conserve Resources

The corrosive materials and heavy metals in batteries can impair human health and the environment. Rechargeable batteries use greatly reduces the quantity of batteries manufactured, used and discarded.

AmpliVox recommends recycling batteries through Call2Recycle, Inc., a 501(c)4 non-profit organization - www.call2recycle.org
