

NEW! 2.4 GHz Digital BeltBlaster

Our NEW 2.4 GHz Digital BeltBlaster is truly a unique compact PA that combines flexibility with functionality, without compromising sound quality. A powerful little unit designed for tour guides, school teachers, or individuals with voice impairments. When portable voice reinforcement is needed, this is the system you want.

The high power speaker amplifier fits into a wearable waistband carrying case. Included is a Lightweight 2.4 GHz Wireless Microphone Headset that gives you handsfree communication, with no cords or wires. A wired microphone can also be used in conjunction with the wireless headset, when plugged into the microphone input.

Exceptional sound quality for audiences up to 100, in a lightweight, hands-free system!

- Small, compact speaker fits inside the included belt carrying case, which adjusts from 30 -56"
- Built-in Mini SD/USB/Aux Ports allow you to play music, recorded presentations or other media directly from unit
- Includes hands- free 2.4 GHz Wireless Microphone Headset Transmitter with mini USB charging cord
- Both the speaker amplifier and the microphone headset have built-in rechargeable batteries
- USB / AC charging cords and AC adapter are included.
- Adjustable waistband carry case protects your Belt Blaster, while providing maximum portability

Great for classrooms, fitness, and tour guides!

This unique, innovative product allows for maximum flexibility of use!
