AVProconnect PRESENTS

Bullet Train

ULTRA HIGH BANDWIDTH / ULTRA HIGH SPEED HDMI CABLES

RIDE THE TRAIN. Your new go-to HDMI cable is here! 18Gbps, HDR and Wide Color Gamut are no issue for Bullet Train Premium HDMI cables. Manufactured by AVProConnect, the name to trust in professional audio video integration products, Bullet Train allows installers to rest assured that these cables are highly engineered and tested to be a long lasting part of any infrastructure.

When High Dynamic Range (HDR) and Wide Color Gamut (WGC) are required, these are the cables you NEED to be using. Bullet Train was made to provide clients with a reliable, affordable HDMI cable ready for powerful 4K installations. Ensure stable video and audio in new installs with Bullet Train HDMI and feel confident telling your clientele that they are using the best cables on the market.

Bullet Train

LONG HAUL PREMIUM HDMI CABLE

GO THE DISTANCE. Perfect for stable distribution over long distances, Bullet Train Long Haul HMDI Cables are ideal in situations where one may need a little more distance but would rather not use an extender product. Utilizing fiber optics along with copper wire, these Long Haul AOC cables give you all the features you come to expect from Bullet Train – HDR, WCG, 4K60 (4:4:4), 18Gbps, and ultra high speeds.
