

# UHD/4K TO DISPLAYPORT CONVERTER

- Supports 4 3G-SDI Inputs
- DisplayPort 1.2 Output
- Supports Embedded Audio
- Auto-detect inputs
- Supports both QHD and 2SI

## Micro-4K-DP

UHD/4K (4 x 3G) to DisplayPort 1.2 Converter

| Micro4K-DP     |                                                                          |                   |                                                         |
|----------------|--------------------------------------------------------------------------|-------------------|---------------------------------------------------------|
| Video Inputs   | 4 x 3G-SDI                                                               | Outputs           | Displayport 1.2                                         |
| Total Windows  | 1                                                                        | On Screen Display | N/A                                                     |
| Serial Digital | SMPTE 424M, 292M, 259M                                                   |                   |                                                         |
| Equalization   | 120m at 2.97 Gbps, 140m at 1.48 Gbps, 400m at 270 Mbps with Belden 1694A | EMI/RFI           | Complies with FCC Part 15, Class A, CE, EU, EMC, C-tick |
| Return Loss    | > 15db up to 1.485 Gbps < > 10db up to 3G                                | Power             | 12 DC 1.2A                                              |
