

DynamiQ™ Wall Stand

Motorized height adjustable stand

The DynamiQ Wall Stand is a height adjustable wall-mounted stand designed specifically for large monitors. This ADA compliant wall stand is a perfect solution for collaborative environments in libraries, training centers and board rooms.

The motorized mount, powered by an electric lift, allows you to safely and quietly raise and lower single displays up to 300 lbs. The control panel, located on the side of the stand, includes two preset heights or can be controlled with the touch of a button.

The frame and panel comes in gun metal gray. Panels may be custom skinned in veneer or laminate to match any environment. Cabling pathways throughout with 3RU of vertical rack space. The stand must be anchored to the wall.
