# BELKIN®

OmniView® Desktop KVM Switches

Share Single or Dual Monitors, One Keyboard and Mouse With up to Four Computers.

The Belkin Desktop KVM Switch lets you share up to two high-resolution monitors, keyboard, and mouse with up to four computers, saving space on your desk and reducing equipment clutter. The sleek, new design incorporates a built-in USB 2.0 2-port hub* with one of the ports conveniently located on the front. This is perfect for connecting an MP3 player, printer, scanner, or any of your USB devices to the KVM Switch while allowing your connected computers to access them. Sensitive push buttons on the front allow for easy switching, and independent audio-switching means you can play music from one computer while accessing files from another.

KEY FEATURES

- **PERFORMANCE:**
  Support for numerous computer brands and multiple operating systems

- **EASY TO INSTALL:**
  Friendly color-coded cables are included with every Desktop KVM Switch

- **USER-FRIENDLY DESIGN:**
  Front-panel buttons with LED indicator lights provide easy-to-access switching between multiple computers

- **EXCELLENT VIDEO QUALITY:**
  Supports large monitors and high-video resolutions

- **ADVANCED SWITCHING CAPABLE:**
  Hot-key switching provides instantaneous access

- **INDEPENDENT AUDIO SWITCHING:**
  Allows the user to switch systems being accessed without switching audio output; great for streaming audio

- **PERIPHERAL SHARING:**
  Share your USB devices among multiple computers (on select models)

- **MULTI-PLATFORM SUPPORT:**
  PS/2 and USB compatibility (on select models)

- **3-YEAR WARRANTY:**
  Belkin's assurance | Quality. Service. Value.

CABLE KITS ARE INCLUDED

*Not available on F1DS102J and F1DS104J.
