PRO X Lightning Cable

Connecting cable for PRO X and PRO headphones (1.6 m)
with integrated DAC

Order # 728.519

DESCRIPTION

As the sound is perfectly adapted to the DT 700 PRO X, DT 900 PRO X, DT 1770 PRO and DT 1990 PRO studio headphones, the PRO X Lightning cable provides professional audio quality on iPhone, iPad or iPod with Lightning connection.

The integrated Digital-to-Analogue converter (DAC) makes it possible to change between different end devices while maintaining a consistently high audio quality. The integrated microphone allows using the headphones for phone calls. The volume or playback of tracks can intuitively be controlled via the integrated remote control.

Selected materials make the PRO X Lightning cable ideal to complement the PRO X or PRO headphones with a 3-pin mini XLR connection. The 1.6 metre cable can be locked to the headphone housing. The remote control and the condenser microphone are integrated in a durable aluminium housing. The IP65 certification also confirms protection against splash water.

TECHNICAL SPECIFICATIONS

Headphones

Frequency response	4 – 24,000 Hz
Nominal impedance	0.35 Ω
Output power	.4 mW @ 250 Ω 21 mW @ 48 Ω
T.H.D.	0.003%
Signal-to-noise ratio	113 dB
Channel separation	79 dB
Compatible with EN 50332	Yes
Cable length	1.6 m
Weight	45 g
Cable side	single-sided left, detachable
Connection headphones	mini XLR (3-pin)
Connection end device	Apple Lightning TM
Degree of protection	IP65

Microphone

Transducer type	electret condenser
Polar pattern	omnidirectional
Microphone sensitivity	-17 dBFS/Pa

Lightning

USB version	none, using Apple Lightning audio protocol
DAC	Apple A2M
Max. sampling rate	48 kHz / 24 bits
Audio output sample size (loudspeaker)	24 bits
Audio output sampling rate (loudspeaker)	48 kHz
Supported audio file formats	depends on source device
