

The universal controller from Broadcastvision allows you to control ANY personal viewing screen and/or control ANY cable, satellite & IPTV set top box without the battery operated remote control.

Channel GUIDE Feature available for:

- The only universal controller in the fitness industry that allows the user to operate cable, satellite and IPTV set top boxes in conjunction with any manufacturer's personal viewing screens, without the need for an additional handheld remote control unit. The user can control the personal viewing screen with just the universal controller.
- Replace faulty controllers from Life Fitness, Startrac®, Precor®, Life Fitness®, Technogym®, Matrix®, True®, Cybex®, Spirit®, Intenza®, Stairmaster® and others.
- Control ANY cable, satellite or IPTV set top box. The set top box can be located next to the cardio equipment or remotely located, back in an A/V closet for instance.
- Control ANY personal viewing screen with set top box control.
- Broadcastvision first offered a solution for set top box control in 2011 and is the clear-cut market leader in this technology.

The Universal Controller Applications from Broadcastvision.

The Universal Controller is a versatile technology that can be used for controlling cable, satellite & IPTV set top boxes and/or it can be used to control Personal Viewing Screens.

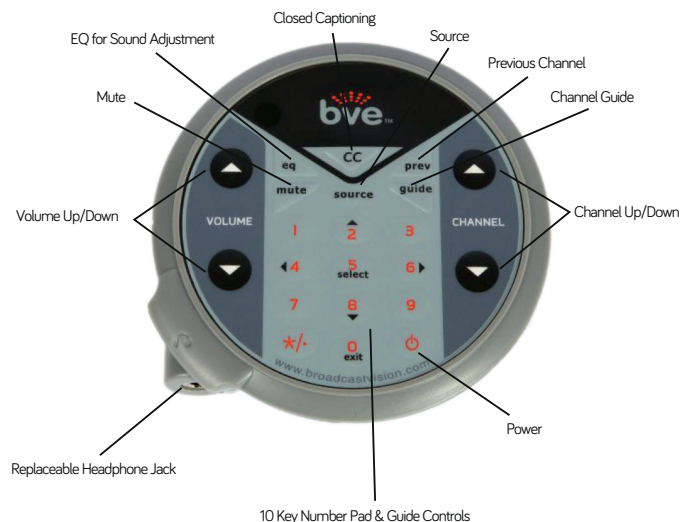

Replace faulty controllers from Life Fitness, Precor, Matrix, Startrac, Cardio Theater, CardioVision, Fantaay, MYE and others to control the personal viewing screen.

Use the Universal Controller on cardio equipment to control cable, satellite or IPTV set top boxes and eliminate the hand-held battery operated remote control. Note: Please check out our CAB (console adapter box) solution first to see if your cardio equipment is compatible. Our CAB solution allows you to control personal viewing screens and cable, satellite and IPTV set top boxes using the controls built into the console. **CLICK HERE.**

Channel Guide Use our controller when you want members to have access to the channel guide for DIRECTV, Dish Network and Motorola brand set top boxes.

10-Key Pad Many fitness equipment TV control pads are limited with just channel up and down. Use our controller when you want a 10-key number pad so members can directly access the channel.

More features than any other controller in the fitness industry
