CB SERIES DRYWALL
MOUNTING FRAME

Patent Pending.

CB-SR12

(shown with CB-12 Ceiling Box)

CB-SR22

(shown with CB-22 Ceiling Box)

DESCRIPTION

If you want to mount our popular ceiling boxes in a drywall ceiling, you need the "FRAME". The CB-SR12 and CB-SR22 drywall mounting frames are expressly designed to easily mount FSR's 2'x2' (CB-22) and 1'x2' (CB-12) Ceiling Enclosures. The mounting frame can be installed in the ceiling opening using threaded rod, stranded wire cable, or screws through specific holes in the sides of the unit. The ceiling box can then be hung vertically, via the included cables, while the equipment is mounted and wired allowing convenient access to the components and cables. The ceiling box can then be lifted into the frame and locked into place. The ceiling box interior can be accessed in the same way for future re-cabling and service. Ceiling boxes and frames are ordered separately depending on the type of ceiling.

APPLICATIONS

The "FRAME" is used in conjunction with the FSR ceiling boxes. The ceiling boxes and frames can be used anywhere you need to mount equipment in the ceiling, or where you are mounting a projector or display in the ceiling.

Popular install sites include:

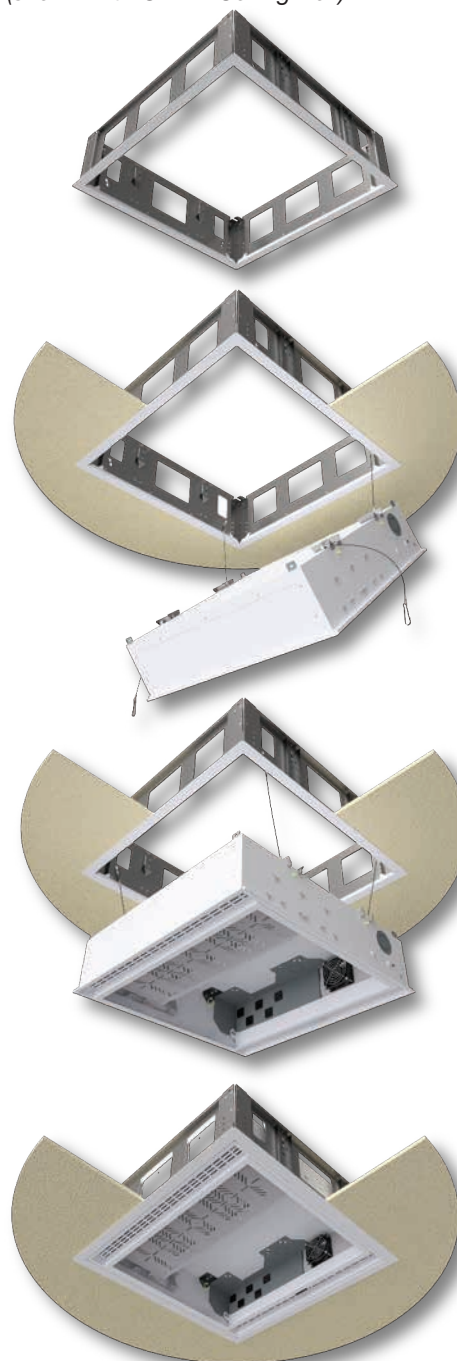

- Conference Centers
- General Meeting Facilities
- Airports
- Museums
- Lunch Rooms
- Corporate Offices
- Schools
- Training Facilities
- Medical Facilities
- Retail Environments
- Huddle Spaces
- Sports Bars & Restaurants

APPROVALS

All FSR ceiling products are agency listed, including plenum rated.
