DESCRIPTION

FSR's DSKB series of consoles are designed for mounting standard wall plates when you want them anywhere but the wall. These compact consoles the essential accessory for FSR or any other manufacturer's controls, switch panels, keypads, and IPS wall plates. Once mounted to the DSKB, the possibilities are endless. Mounting feet allow for the unit to be free moving and versatile. Mounting holes allow for fixed mounting on virtually any flat surface like a desktop or shelf, so your plates are safe and secure from damage or theft. These units come in textured black and white options. The DSKB series is ergonomically designed with a 45° tilt for easier and more convenient use. Holes in the backside allow for mounting of IPS connector or grommet plates for cable exit.
