FL-500P Floor Box

### NEW "TOOL-LESS" COVER DESIGN!

The cable access door can be easily removed by lifting the integrated U-Access handle to quickly access the interior compartment, connectors, and cables.

- 11-gauge steel temporary construction cover included
- 11-gauge finished steel cover with choice of carpet edging
- Mitered brass or aluminum carpet edging .5" or .25" high
- Stainless steel compression latches
- Lift-off full access door

**Scrub water approved for carpet, tile, and wood floors!**

### DESCRIPTION

Our FL-500P Floor Boxes combine rugged construction and an elegant design for use in carpet, tile, or wood covered floors over poured concrete applications. This makes it the perfect floor box for ballrooms, meeting rooms, public spaces, and high traffic areas. There is ample compartment room to accommodate power, audio, video, telecommunications, and data in one elegant and practical box.

There are a variety of covers to choose from. Options include integrated carpet edging, flat covers for non-carpeted, bare floor applications, and different finishes. The lift-off section of the cover allows full access to internal connector plates and stored cables. The hinged cable exit door flips back to allow the cover to remain in place after connections are made and cables are routed through it. The 0.25" and 0.5" raised edge style and solid covers are UL scrub water approved.

The innovation continues to the "transformable" box bottom. The FL-500P's internal brackets can be arranged to provide numerous options for both high and low voltage standard gang openings, making it the most flexible and easiest to install floor box available. Removable center dividers make passing cables through the various compartments a snap. Integral "Easy Pour" leveling feet are standard on all of the boxes. Several box depths are available. The 3" through 10" deep boxes are UL listed.

The unit includes all of the necessary internal plates and brackets to make "pre" and "post" pour compartment changes quick and easy. Using this system, both high and low voltage gang configurations, along with line voltage compartment isolation, can be implemented "on the fly". This makes just about any cabling / connector scenario possible.

### SPECIFICATIONS

|           |           |                                      |

## PLATE CONFIGURATIONS

The box contains two identical brackets and either side can be configured as shown using the included parts.

**Plate Configuration 1-2**

**Plate Configuration 1-3**

**Plate Configuration 2-2**

**Plate Configuration 3-1**

**Plate Configuration 4**

*\*Decora plates shown for reference only.*

## FL-500P “TRANSFORMABLE” BOX BOTTOM

Only on 4” through 10” box bottoms.

### **GANG PLATE DIVIDERS**

Add and remove as needed to form a multitude of gang arrangement possibilities

### **CENTER DIVIDERS**

Remove to run cables across compartments

### **COMPARTMENT DIVIDERS**

Remove or arrange as needed to isolate compartments

**WARNING:** Must be used on a compartment where line voltage wiring is present

## COVER OPTIONS

Available in brass, aluminum or painted edging to compliment floor covering.

Not all cover color options are pictured. See the ordering table below for additional options.

**NEW**

The new U-Access cover design features a handle to easily lift the cover. All corner fasteners have been removed.
