

G-DRIVE™ ev RaW

A rugged and lightweight USB hard drive

The G-DRIVE® ev RaW drive is designed to go with you everywhere. Fitting easily into your backpack, briefcase or purse, it's lightweight and when coupled with the bumper, can withstand a 1.5m¹ drop. As part of the Evolution Series, it can either be used as a standalone device, inside the ev All Terrain Case², or with storage solutions such as the G-SPEED Shuttle with ev Series Bay Adapters for ultra-fast transfers and editing. This rugged drive is ideal for anyone requiring on-the-go access to their personal and/or professional files, photos, videos, music and more.

²2TB and 4TB capacity is not compatible with the ev All Terrain Case
³2TB and 4TB capacity is not compatible with the ev All Terrain Case

As used for storage capacity, one gigabyte (GB) = one billion bytes and one terabyte (TB) = one trillion bytes. Total accessible capacity varies depending on operating environment. As used for transfer rate, megabyte per second (MB/s) = one million bytes per second. Performance will vary depending on your hardware and software components and configurations. Product specifications subject to change without notice. Pictures shown may vary from actual products.
