

DDA-1113

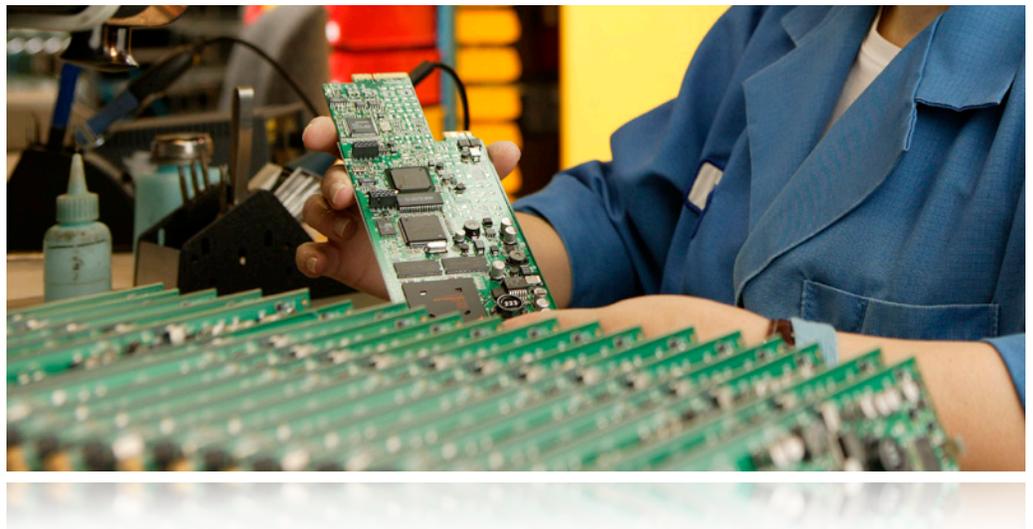

AES DA (75 Ohm)

Space-saving, modular platform for advanced signal processing.

The DDA-1113 from Grass Valley, a Belden Brand, is a digital audio DA that supports AES-3id 75 ohm digital audio standard and provides nine outputs.

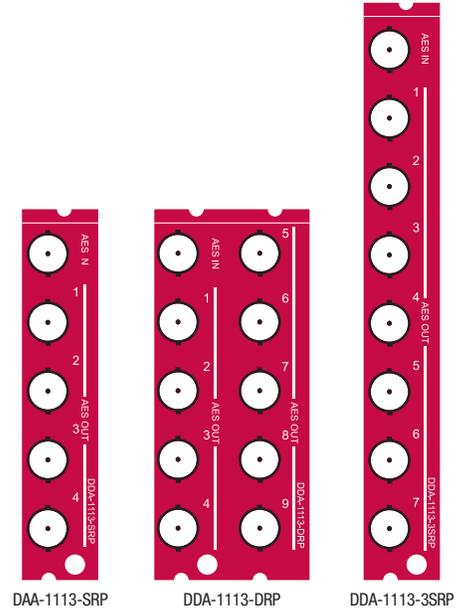

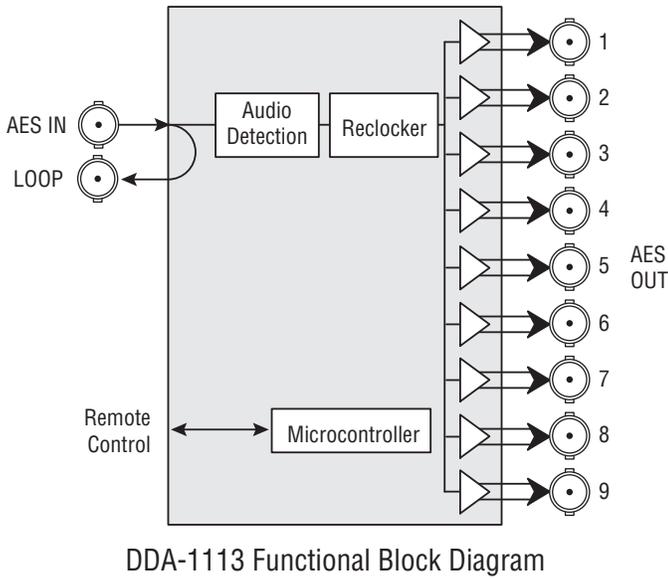

The input features clock regeneration for reduced jitter and signal restoration. An audio input signal status is also available indicating the input signal presence and validity with remote reporting.
