

# Rugged RAID

## THUNDERBOLT™

MOBILE DRIVE  
Data Sheet

### **Toughest in the Field.**

### **Fast and Secure Anywhere.**

- Thunderbolt and USB 3.0 for speeds of up to 240 MB/s<sup>1</sup>
- Bus powered via Thunderbolt for mobile workflows
- Hardware RAID 0/1 flexibility for speed or security
- Shock, dust, and water resistance for all-terrain use

design by neil poulton

### **Product Overview**

The LaCie Rugged™ RAID delivers a game-changing blend of PC and Mac® compatibility, capacity, speed, mobility, and reliability. As the ultimate solution for on-the-go professionals, the LaCie Rugged adapts to the need for performance or complete data security.

### **Use Cases**

- **Field-Based Content Storage:** With 4 TB of capacity in RAID 0, the LaCie Rugged offers massive amounts of storage to carry all the content needed for ongoing projects. Acquire more photos, footage, and other types of content in the field with a single solution than ever before.
- **Field-Based Editing:** In RAID 0, users get up to 240 MB/s, which provides enough bandwidth to store and transfer twice as many photos at twice the speed. Users can even start to edit photos in the field with Adobe® Lightroom®.

<sup>1</sup> These transfer rates were achieved using AJA System Test when connected to a Mac computer via the Thunderbolt interface.
