

PBK-20A SERIES DATASHEET

The Laird LDC-PBK-20A is a series of 20-amp power distribution splitters that provide power through the box and breakouts to your choice of Neutrik powerCON TRUE1 TOP, and powerCON Type B connectors. Feed-thru connectors allow for daisy-chaining of multiple boxes, ensuring uninterrupted power delivery across various setups. This series features an M10 threaded insert that enables versatile and easy integration with other equipment or truss systems. The LDC-PBK-20A is ideal for professional audio and lighting rigging and live events.

Features:

- High-Quality Neutrik powerCON connectors
- Rugged Aluminum Enclosure
- Multiple connector options are available
- M10 Truss mounting insert that enables easy mounting

LDC-PBK-20A-01

Laird PBK-20A-01 Neutrik powerCON TRUE1 20-Amp Power Distribution Box to Five (5) Outputs

LDC-PBK-20A-02

Laird PBK-20A-02 Neutrik powerCON TRUE1 to Four (4) Type B Outputs

LDC-PBK-20A-03

Laird PBK-20A-03 Neutrik powerCON TRUE1 20-Amp Power Distribution Box Type A to One (1) Type B and Four (4) TRUE1 Outputs

LDC-PBK-20A-04

Laird PBK-20A-04 Neutrik powerCON TRUE1 20-Amp Power Distribution Box Type A to Five (5) Type B Outputs

PBK-15A SERIES DATASHEET

Specifications:

Box Specifications:

- **Dimensions:** 6.5" x 4.875" x 2.625"
- **Rated Amperage:** 20 Amps

Neutrik powerCON Connectors:

- **Contact Resistance:** $\leq 2 \text{ m}\Omega$
- **Dielectric Resistance:** 4 kVdc / 2.8 kVac
- **Insulation Resistance:** $> 1 \text{ G}\Omega$
- **Rated Amps:** 20 Amps
- **Rated Voltage:** 250 V AC
