

# CAT6A FEEDTHROUGH WALL PLATE DATASHEET

My Custom Shop's wall Cat6a feedthrough wall plates feature a shielded Neutrik etherCON RJ45 female-to-female feedthrough wall plate. The simple plug-and-play design provides fast installation while ensuring reliable performance and protection from EMI/RFI, enabling you to extend the overall cable length. Ideal for data centers, telecommunications rooms, AV installations, and environments where EMI/RFI protection is critical. Available with feedthrough or IDC termination connectors.

**Note:** Does not intermate with Neutrik NE9MCA6 Cat6 cable connectors.

## Features:

- High-quality Neutrik etherCON connectors
- Shielded etherCON provides high noise immunity and EMI protection
- Intermateable with existing etherCON Cat5 infrastructure
- Stainless Steel wall plate
- Cat6a / Class EA according to TIA/EIA 568C and ISO/IEC 11801

## Specifications:

- **Wall Plate Panel Size:** 1 Gang
- **Number of Ethernet Ports:** 1, 2
- **Networking Type:** Cat6a
- **Type of Ethernet Connector:** Female RJ45 connector with IDC Termination
- **Shielded:** Yes
- **Insulation Resistance:** >0.5GΩ
