

COPYWRITER PRO BLU-RAY DUPLICATORS

COPYWRITER PRO BLU-RAY TOWER DUPLICATORS

Don't let the production of high-quality Blu-ray Discs in large volumes become an annoyingly tedious chore. Whether it's one disc at a time, or hundreds per run, turn to the longtime industry standard for performance and reliability—the Microboards CopyWriter Blu-ray Tower Duplicator. Insert your master in the top drive, place blank discs in the remaining drives, and let it burn!

Get your jobs done fast. All CopyWriter systems feature 8X BD / 48X CD-R / 24X DVD-R/+R recorders. The intuitive premium 8-button panel and multi-line display make copying discs a simple procedure for the novice user, while keeping all the high-end, power-user features in tact, like disc verification mode and adjustable recording speeds, for the advanced power user. Now, towers also include an optional 500 GB dynamic hard drive for storage of disc images, making it easy to drag and drop files to burn from your PC using a USB 2.0 cable.

NEW FEATURES: Access your tower copier from anywhere on your network with an optional networkability upgrade! See website for details.
