

HDS-S

It's never been easier to integrate a HD Flow Kit than it is now with Peerless' HD Flow Wall Shelf (HDS-S). The shelf's unique combination of stylized features and highly functional design merge and deliver a low-profile, sleek, safe and ideally ventilated shelving solution for Peerless' HD Flow product offering. The design of the HD Flow Wall Shelf allows HD Flow to operate at optimal temperature when placed horizontally above, below or to the side of the flat panel TV. No matter where the shelf is installed it's designed to ensure that HD Flow receives proper ventilation. Its ventilation maximizing risers add slip resistance, and when combined with the front slip guard the HD Flow stays put. The stylish high-gloss black shelf easily integrates into any application and assists with a clean clutter-free installation via its cable management system that keeps AV and power cables neatly organized and virtually unnoticeable.

Compatible with HD Flow Wireless Device Models HDS100, HDS100-X and HDS-R

LOW-PROFILE DESIGN
Slim design makes it easy to integrate a HD Flow near a TV in any application

CLEAN INSTALLATION
Cable management cut-out routes cables keeping them neatly organized and virtually out of sight

COOLING PORTAL
Provides main path for air flow, keeping the HD Flow unit at the optimal operating temperature

VENTILATION MAXIMIZING RISERS
Provide ample space for air circulation around the unit

FRONT SLIP GUARD
Keeps HD Flow unit from being accidentally bumped off the shelf

Features

- Supports HD Flow Receiver/Transmitter Units
- Ensures proper air-flow and ventilation for ideal function of HD Flow unit
- Mounts to 1/2" or thicker drywall with included wall anchors for virtually limitless placement options
- High gloss black finish blends well with any environment
- Installation hardware included for quick installation
