

## AcousticCoverage™ Series

### AC-C4T

#### Full-range, ceiling mount loudspeaker

##### Features

- High quality 4" full-range transducer provides exceptional clarity through the critical voice range.
- Improved musicality often not seen in typical BGM class products.
- Ported baffle for increased low frequency extension down to 70 Hz.
- Low saturation 70/100V transformers with 8 ohm bypass.
- 4-pole Euroblock connector eases system wiring.
- Advanced voicing via QSC Intrinsic Correction™, applied using Q-Sys processing or CXD amplifier platforms.
- White (RAL 9010) with UV inhibitors to match complimenting QSC product families.
- Complete EASE, CAD & BIM information available online

#### Wide Area Paging · Background Music · Office Buildings · Healthcare Facilities · Concourses · Transportation Terminals · Ancillary Support in Larger Systems

The QSC AcousticCoverage™ AC-C4T is a ceiling mounted 4" full-range loudspeaker with 70/100V transformer, suitable for a wide variety of voice paging and background music sound reinforcement applications.

AcousticCoverage™ is designed to offer integrators a cost effective solution for applications where voice reinforced coverage is of primary concern, while providing improved musicality often not seen in typical BGM class products.

A high quality 4 inch polypropylene cone transducer with butyl rubber surround offers pristine clarity through the critical vocal range for increased speech intelligibility. With 140 degrees of conical coverage, the AC-C4T reduces the number of loudspeakers required for even coverage in low ceiling applications.

The easy to install blind mount assembly features a ported baffle which optimally tunes the galvanized steel backcan for added musicality, creating low frequency extension down to 70 Hz. To maintain this frequency response, the AC-C4T utilizes a 16-watt low-saturation and low-loss 70/100V transformer with varying selectable taps, including an 8Ω bypass.

To further enhance performance and speed of install with optimum result, advanced voicing via QSC Intrinsic Correction™ techniques are obtainable using Q-Sys™ networked audio processing platforms, including CXD amplifiers for a complete QSC systems solution.

Installers will appreciate the 4-pole Euroblock connector for loop thru wiring, located under a quick access swivel plate. Eliminating the termination hassles of star topology wiring designs, the generous Euroblock of the AC-C4T can accept four 18AWG pairs.

A safety tether tab is affixed to the adjustable conduit clasp plate for seismic sensitive installations. C-ring and tile rails are included with each pair packed assembly, complete with joining screws and cut-out template.

The AC-C4T baffle and grill are QSC standard white (RAL 9010) to match complimenting QSC product families and includes UV inhibitors to prevent discoloration over time. The AC-C4T may also be painted to match any décor.

To assist in successful systems integration, complete EASE, CAD, and BIM files are available for download online.

# AC-C4T Details

## Beamwidth:

## Impedance / Frequency Response:

## Dimensions:

## AC-C4T Specifications:

System Details	AC-C4T
Effective frequency range <sup>1</sup>	70 Hz – 16 kHz
Rated noise power / voltage <sup>2</sup>	16 watts / 11.3 volts (rms)
Broad-band sensitivity <sup>3</sup>	89 dB SPL
Coverage angle (-6 dB)	140° (500 Hz - 5 kHz)
Maximum continuous SPL <sup>4</sup>	101 dB
Maximum peak SPL <sup>4</sup>	107 dB
Rated impedance	8 ohms
Transformer taps	70 V: 16, 8, 4, 2, 1 watts 100V: 16, 8, 4, 2, watts 8 ohm bypass
Transducer	100 mm [4 in] Polypropylene cone with butyl rubber surround
Input connector type	Euroblock connector with parallel output terminals
Baffle material	Painted ABS polymer
Grille material	Painted steel
Back can material	Galvanized steel
Testing	Listed UL1480, UL2043 safe for use in air handling space
Net weight	2.2 kg [5 lb]
Product dimensions	Ø214 x 201 mm [Ø8.4 x 7.9 in]
Cut-out Dimensions	Ø186 mm [Ø7.3 in]
Ceiling Capture Thickness	6.4 - 38.1 mm [0.25 - 1.5 in]
Shipping weight	6.86 kg [15.1 lb]
Shipping dimensions	273.1 x 609.6 x 266.7 mm [10.75 x 24 x 10.5 in]
Included accessories	Rails & C-ring for ceiling tile installation

<sup>1</sup> Half-space, -10 dB from on-axis sensitivity <sup>2</sup> IEC60268-1 noise signal for 2 Hrs

<sup>3</sup> On-Axis, half-space sensitivity, 2.83V, 1 m <sup>4</sup> Calculated from rated noise voltage and sensitivity
